(1) in and to inventions described in a patent application titled "FORMING HAND TOOL" for which we filed United States Patent Application No. 14/184,506 on February 19, 2014 (Atty. File No. 066042-8566-US01) (hereinafter the "U.S. utility patent application"), which application claims the benefit of United States Provisional Patent Application No. 61/766,412 filed February 19, 2013 (hereinafter the "U.S. provisional patent application") (Atty. File No. 066042-8566-US00);

(2) in and to the U.S. utility patent application, and the U.S. provisional patent application, in and to all other patent applications (including divisional, continuation, continuation-in-part, 35 U.S.C. §111(b) provisional, 35 U.S.C. §111(a), and reissue applications) based upon said inventions, and in and to the patent or patents to be granted thereon, to the full end of the term or terms for which said patent or patents may be granted;

(3) in and to all patent applications on said invention now or hereafter filed in countries foreign to the United States of America, and in and to any and all patents granted on said applications to the full end of the terms for which said patents may be granted; and

(4) under the International Convention in respect to the U.S. utility patent application and the U.S. provisional patent application, and agree that any patent applications of any foreign countries which may be filed shall be filed in the name of our Assignee with a claim to priority based on either or both of the U.S. utility patent application and the U.S. provisional patent application.
