CONFIRMATORY ASSIGNMENT

This Confirmatory Assignment ("Assignment") shall be effective as of May 5, 2014 ("Effective Date") by and between:

Vojin Zivojnovic
Davorin Mista
Mirela Simonovic
Strahinja Jankovic

referred to as the Assignors ("Assignors") and AGGIOS Europe LLC, a limited liability company having an address at Ruzveltova 1A, Belgrade, Serbia ("Assignee").

1. Background.

1.1 Assignor, as a business partner of the Assignee invented certain new and useful improvements as described and set forth in an application for patent in the United States titled "Automatic Energy Design and Management System," U.S. Serial No. 14/271,349 filed on May 5, 2014. The subject matter of the patent application shall be referred to as the "Invention."

1.2 The Assignor and Assignee own all right, title and interest, to the Invention. The Assignor, as consideration for his engagement with the Assignee agrees to assign all of his right, title and interest in the Invention to the Assignee. Furthermore, the Assignor agrees to sign and shall sign all the necessary documents in order to perfect and confirm Assignee's ownership in the Invention created or developed by the Assignor.

1.3 For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignor signs this Assignment in order to confirm the Assignee's ownership to and formally transfer all rights from the Assignor to the Assignee including all right, title and interest in, the Invention and all pending or issued patents which may be granted from the Invention in the United States or any foreign country.

2. Assignment.

2.1 The Assignor sells, assigns and transfers to the Assignee, effective as of the Effective Date and includes all time before and after the Effective Date, the full and exclusive right, title and interest to the worldwide rights in the Invention, the pending patent application and all issued patent(s) that may be granted from the Invention, including any continuation, divisional, continuation-in-part, substitute or reissue applications for the full term or terms for which the patents may be granted.

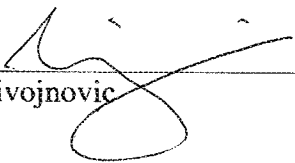

2.2 The Assignor also assigns all of his worldwide right, title and interest in and to the Invention in all foreign countries, including the right to apply for a patent in any foreign country and the right to all current and further applications for patents for the Invention, including the right to claim International Convention priority.

2.3 Assignor further transfers and assigns to the Assignee all causes of action, rights, and remedies arising under any such patent or application before or after the Effective Date of this Assignment.

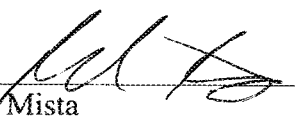

2.4 Assignor hereby represents, warrants and covenants that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with their assignment and sale of the Invention.

2.5 Assignor further represents, warrants and covenants that, upon Assignee's request, the Assignor will promptly provide Assignee with all pertinent facts and documents relating to the Invention, patent applications or patent as may be known and accessible to Assignor and that the Assignor will testify as to the same in any dispute or litigation related to the Invention or any related patent or patent application and will promptly sign and deliver to the Assignor or his legal representative any and all papers, instruments or affidavits required to apply for, obtain, maintain and enforce the Invention and any patents or patent application relating to the Invention as may be reasonably necessary or desirable.

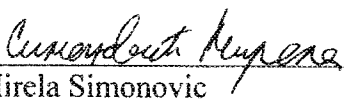

2.6 The terms, covenants and provisions of their Assignment shall inure to the benefit of the Assignee, its successors, assigns and other legal representatives, and shall be binding upon Assignor, his heirs, legal representatives and assignees.
