WHEREAS, David Christian Gerard Tournatory, a citizen of France, residing at 101 Acacia Lane, Redwood City, CA 94062, hereinafter referred to as "Assignor," is an inventor of and full owner of all right, title, and interest in and to the invention described and set forth in the below-identified application for United States Letters Patent:

Title of Invention: Circuits and Methods for Providing Current to a Load

Application number: 14/315,691

WHEREAS, Gazelle Semiconductor, Inc, a corporation of the State of Delaware, located at 101 Acacia Lane, Redwood City, CA, 94062; hereinafter referred to as "Assignee," is desirous of acquiring an interest in the invention and application and in any U.S. Letters Patent and Registrations which may be granted on the same;

For good and valuable consideration, receipt of which is hereby acknowledged by Assignor, Assignor has assigned, and by these presents does assign to Assignee all right, title and interest in and to the invention and application and to all foreign counterparts (including patent, utility model and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on the same in the United States and all countries throughout the world, and to claim the priority from the application as provided by the Paris Convention.
