ASSIGNMENT OF PATENTS

THIS ASSIGNMENT is made as of this 21st day of August, 2009, by Genaera Liquidating Trust ("Assignor") in favor of Ohr Pharmaceutical, Inc., a Delaware corporation (formerly BBM Holdings, Inc., "Ohr").

RECITALS

A. Reference is made to that certain Asset Purchase Agreement, dated as of August 21, 2009 (the "Asset Purchase Agreement"), by and between Ohr, as Purchaser, and Assignor, as Seller.

B. The terms defined in the Asset Purchase Agreement and not otherwise defined herein shall have the meanings given them in the Asset Purchase Agreement;

C. Assignor is assigning its entire right, title and interest in and to the Patents, Patent Licenses and patent applications listed on Schedule A, attached hereto, and to the inventions described and claimed in those Patents, Patent Licenses and patent applications.

ASSIGNMENT

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, transfer, and assign to Ohr, its successors, assigns and legal representatives, all of the rights, title and interests in and to the Patents, Patent Licenses and patent applications, including without limitation, all Patents which may be granted on any of the aforesaid patent applications, the worldwide rights to the inventions described and claimed therein, and reissues, re-examinations, divisions, continuations, renewals, extensions and continuations-in-part therefor throughout the world, together with all rights under the International Convention for the Protection of Industrial Property and any similar treaties or agreements, the same to be held and enjoyed by Ohr for its own use and benefit and the use and benefit of its successors, assigns and legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor had this Assignment not been made, together with all income, royalties, damages and payments resulting from or attributable to activity or conduct after the effective date of this Assignment, and the right to sue and collect for all future, present and past infringements thereof, together with all causes of action for any and all infringements which may have occurred prior to the execution of this Assignment and the right to receive and retain the proceeds relating to those infringements. Ohr shall have the right to obtain and hold in its name all patents, registrations and similar protection throughout the world which may be available in the Patents, Patent Licenses and patent applications.

Assignor agrees: (a) to execute (i) all necessary papers throughout the world to be used in connection with the Patents, Patent Licenses and patent applications and any reissues, re-

examinations, divisions, continuations, renewals, extensions and continuations-in-part therefor, as Ohr may deem necessary or expedient, (ii) all papers in connection with any interference, legal or other proceedings throughout the world to maintain, protect or enforce, or otherwise relating to, the Patents, Patent Licenses and Patent Applications or any reissues, divisions, continuations, renewals, extensions and continuations-in-part therefor, and (iii) all papers and documents which may be necessary throughout the world in connection with the preparation and filing of any foreign applications or with making claims to priority rights granted under the provisions of the International Convention for Protection of Industrial Property or similar agreements; (b) to cooperate with Ohr in every way reasonably possible in obtaining evidence and going forward in any such proceedings throughout the world; and (c) to perform all other affirmative acts which in Ohr's reasonable discretion may be necessary or desirable throughout the world to maintain, protect or enforce the Patents, Patent Licenses, and patent applications and any reissues, divisions, continuations, renewals, extensions and continuations-in-part therefor. These obligations of assistance by Assignor shall survive closing under the Asset Purchase Agreement and shall continue for so long as Ohr may require such assistance from Assignor.

This Assignment includes the right, where such right can be legally exercised by Ohr, in its own name, to apply for and obtain patents in countries foreign to the United States of America, including the full right to claim for any such applications the benefits of the International Convention for Protection of Industrial Property or similar agreements, as fully and entirely as Assignor could have done if the applications has been filed in its name, and the entire interest in any patents which may be granted on any such applications in such foreign countries.

Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States, and the appropriate officials in any other country, to issue any and all Letters Patent that may be granted upon any patent application or any reissues, divisions, continuations, renewals, extensions and continuations-in-part therefor covered by this Assignment to Ohr, its successors and assigns.

Assignor hereby covenants and warrants that no other agreement has been or will be executed in conflict herewith.

Assignor hereby grants to both Ohr and the law firm of Hahn & Hessen LLP of New York, New York (and any other law firm designated by Hahn & Hessen LLP), authority and power to insert on this instrument any further information which may be necessary or desirable for identifying any of the Patents for purposes of recordation in the United States Patent and Trademark Office or any similar or comparable office or officials of any foreign country.
