ASSIGNMENT

I, Matthew F. Myntti, have made an invention which is described in an application for patent entitled Antimicrobial Compositions and Methods Employing Same, which application

- ☐ is being executed and filed concurrently herewith.
☒ was filed on April 7, 2014 (national stage entry), and now is designated as United States patent application number 14/350,322.

NOW THEREFORE, pursuant to the obligations imposed by or arising under one or more of state or national statutes, common law, administrative regulation, and one or more agreements related to the formation and management of the below-mentioned limited liability company and its corporate owner, I do hereby agree to the following --

To Next Science, LLC, a limited liability company created and duly existing under the laws of the State of Florida and having a place of business at 8130 Baymeadows Way West in the city of Jacksonville, county of Duval, state of Florida (hereinafter "Next Science"), as well as its successors and assigns, I hereby

- assign, transfer, convey, and set over the full and exclusive right to
 - 1) the above-described invention,
 - 2) the above-described patent application for letters patent of the United States as well as any substitute, continuation, or divisional appl filed thereon,
 - 3) any letters patent of the United States that issues from such application(s) in (2) above as well as any reissue application or request for reexamination filed on such letters patent, and
 - 4) any application for letters patent that relates to the above-described invention and is filed in any regional or national patent office or agency other than the United States Patent and Trademark Office, regardless of whether such application claims priority to the above-described application for letters patent of the United States, as well as any letters patent that might issue from such application(s).

Next Science shall be entitled to all of the benefits, profits, and results arising from or incident to all of the foregoing;

- covenant and agree for myself and my legal representative(s), whether now or hereinafter designated, to
 - assist Next Science and/or its designee(s), to the extent requested, in the prosecution of any application for letters patent related to the above-described invention, in any interference or opposition declared on such application(s) for patent or patent(s) issuing therefrom, or in litigation which arises out of or includes a claim relating to such application(s) for patent or patent(s) issuing therefrom, and
 - execute all papers related to such application(s) for patent which Next Science and/or its designee(s) request to be signed,

provided that expenses relating thereto shall be borne by Next Science; and

- authorize and request the official of the United States Patent and Trademark Office with responsibility for issuing letters patent to issue any letters patent of the United States relating to the above-described invention in the name of Next Science.

IN WITNESS WHEREOF, I have executed this document on the date next to my name.
