ASSIGNMENT AND AGREEMENT

For value received, we, **Corey B. Olson** of the City of Madison in the State of Wisconsin, U.S.A., and **Gregory M. Edvenson** of the City of Seattle in the State of Washington, U.S.A., hereby sell, assign and transfer to **Pico Computing, Inc.**, a corporation of the State of Washington, having an office at 506 Second Avenue, Suite 1300, Seattle, Washington, 98104 U.S.A., and its successors, assigns and legal representatives, the entire right, title and interest, for the United States of America and throughout the world, in, to and under certain inventions, whether claimed or unclaimed, related to **SYSTEM AND METHOD FOR INDEPENDENT, DIRECT AND PARALLEL COMMUNICATION AMONG MULTIPLE FIELD PROGRAMMABLE GATE ARRAYS** described and claimed in an application for Letters Patent of the United States executed by us and filed on JANUARY 29, 2015 as U.S. Patent Application No. 14/608,464, and all divisional, continuation and continuation-in-part applications thereof, all reissues, reexaminations and extensions thereof, including all rights of priority arising from said application, and all the rights and privileges in said applications and under any and all patents, patent applications, patent rights, and inventor's certificates thereof that may be granted in the United States for said inventions; and we also concurrently hereby sell, assign and transfer to Pico Computing, Inc., the entire right, title and interest in and to said inventions and all patents, patent applications, patent rights, and inventor's certificates thereof for all countries foreign to the United States and for all other authorities, organizations or entities, including all rights of priority arising from the application aforesaid, and all the rights and privileges under any and all forms of protection, including Letters Patent, that may be granted in said countries foreign to the United States for said inventions; and with all of these rights, title and interest to be held and enjoyed by Pico Computing, Inc. as fully and completely as the same would have been held by me or us had this assignment not been made, and the right to sue for, and recover for past infringements of, or liabilities for, any of the rights relating to any of the application, patents, utility models, or other similar rights resulting therefrom.

We authorize Pico Computing, Inc. to make application for such protection in its own name and maintain such protection in the United States and any and all countries foreign to the United States and all other authorities, organizations or entities, and to invoke and claim for any application for patent or other form of protection for said inventions, without further authorization from us, any and all benefits, including the right of priority provided by any and all treaties, conventions, or agreements.

We hereby consent that a copy of this assignment shall be deemed a full legal and formal equivalent of any document which may be required in any country in proof of the right of Pico Computing, Inc. to apply for patent or other form of protection for said inventions and to claim the aforesaid benefit of the right of priority.

We request that any and all patents for said inventions be issued to Pico Computing, Inc. in the United States and in all countries and all other authorities,

organizations or entities foreign to the United States, or to such nominees as Pico Computing, Inc. may designate.

We agree that, when requested, we shall, without charge to Pico Computing, Inc. but at its expense, sign all papers, testify, and do all acts which may be necessary, desirable or convenient in connection with said applications, patents, or other forms of protection, including but not limited to any supplemental examination, derivation proceedings, opposition, post grant review, reissue, reexamination, inter partes review, extension thereof, or litigation related thereto, including for protecting the validity of or protecting title to title to said invention, and further agree not to challenge or participate in any challenge to the assigned inventions, or any patent application or patent thereon, whether by litigation, post grant review, inter partes review, reexamination, or otherwise.

The undersigned hereby grants Pico Computing, Inc., and/or any person authorized thereby, the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the U.S. Patent and Trademark Office for recordation of this Assignment, including without limitation the Application Number and filing date.
