**ASSIGNMENT**

This Assignment is made by and between **Open Text Software GmbH**, a business entity having a registered office at **Werner-von-Siemens-Ring 20, 85630 Grasbrunn/München, Germany** ("Assignor") and **Open Text S.A.**, a business entity having a business address at **40 Avenue Monterey, L-2163 Luxembourg, Grand Duchy of Luxembourg** ("Assignee").

WHEREAS, Assignor is the owner of all rights, title, and interest in and to the inventions ("Inventions") as described and claimed in the United States and foreign patents and patent applications as listed on Attachment A hereto; and

WHEREAS, the parties desire to have a recordable instrument assigning the entire rights, title and interest in and to said Inventions, said United States and foreign patents and patent applications, on any subsequently filed divisional, continuation, continuation-in-part, re-examination, reissue or other application for protection ("Applications"), and any patents, invention registrations or other forms of protection ("Patents") that may be granted for said Inventions from any Applications in the United States and throughout the world.

NOW, THEREFORE, in accordance with the obligations to assign the Inventions and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, and transfers to Assignee, the entire rights, title, and interest in and to said Inventions, said Applications and any Patents that may be granted for said Inventions in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, it and its legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing the Patents in the United States and throughout the world for said Inventions, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to said Inventions, said Applications, and any Patents granted for said Inventions in the United States and throughout the world.

Assignor represents and warrants that it has not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignor authorizes and requests the Commissioner for Patents of the United States and of all foreign countries to issue any Patents granted for said Inventions, whether on said Applications or on any subsequently filed divisional, continuation, continuation-in-part, re-examination, reissue or other application, to Assignee, its successors and assigns, as the assignee of the entire interest in said Inventions.

IN WITNESS WHEREOF, Assignor and Assignee have executed this Assignment on the date provided below.
