EXHIBIT A

ASSIGNMENT OF PATENT RIGHTS

For good and valuable consideration, the receipt of which is hereby acknowledged, The Foundry, LLC, a limited liability company organized under and pursuant to the laws of California ("Assignor"), does hereby sell, assign, transfer, and convey unto Ardian, Inc., a corporation organized under and pursuant to the laws of Delaware ("Assignee"), or its designees, all right, title, and interest that exist today and may exist in the future in and to all of the following (collectively, the "Patent Rights"):

- (a) the patent applications listed in Schedule 1 attached hereto (the "Assets");
- (b) all provisional patent applications, patent applications, patents or other governmental grants or issuances (i) to which any of the Assets directly or indirectly claims priority and/or (ii) for which any of the Assets directly or indirectly forms a basis for priority;
- (c) reissues, reexaminations, extensions, continuations, continuations in part, continuing prosecution applications, requests for continuing examinations, and divisions of any of the foregoing categories (a) and (b);
- (d) foreign patents, patent applications, and counterparts (i) to which any of the foregoing categories (a) through (c), directly or indirectly claims priority, and/or (ii) for which any of the foregoing in categories (a) through (c) directly or indirectly forms a basis for priority, including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances;
- (e) any of the foregoing in categories (a) through (d), whether or not expressly listed as Assets below and whether or not rejected, withdrawn, cancelled, or the like;
- (f) all rights to all patents, patent applications and/or other governmental grants or issuances of any type related to any of the inventions, invention disclosures, and discoveries described in any of the foregoing in categories (a) through (e) to the extent that any such inventions, invention disclosures, and discoveries (i) are included in any claim in any of the foregoing in categories (a) through (e), (ii) are subject matter capable of being reduced to a patent claim in any reissue or reexamination proceedings brought on any of any of the foregoing in categories (a) through (e), and/or (iii) could have been and/or could be included as a claim in any continuations, continuations in part, continuing prosecution applications, requests for continuing examinations and/or divisions of any of the foregoing in categories (a) through (e);
- (g) all rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial design protections, design patent protections, or other governmental grants or issuances of any type related to any of the foregoing categories (a) through (f), including, without limitation, under the Paris Convention for the Protection of Industrial Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement, or understanding;
- (h) all causes of action (whether currently pending, filed, or otherwise) and other enforcement rights, including, without limitation, all rights under Assets and/or under or on account of any of the foregoing categories (a) through (g), including without limitation, all causes of action and other enforcement rights for: (1) damages, (2) injunctive relief, and (3) other remedies of any kind for past, current, and future infringement;
- (i) all rights to collect royalties and other payments under or on account of any of the Assets or any of the foregoing categories (a) through (h).

The terms and conditions of this Assignment of Patent Rights will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.

Signed this 4th day of November, 2009.
