ASSIGNMENT OF PATENT RIGHTS

This patent assignment ("Assignment") is entered into as of the below date by and between Verizon Patent and Licensing Inc., a company organized under the laws of Delaware with a principal place of business at One Verizon Way, Basking Ridge, NJ 07920 ("Assignor"), and Open Invention Network, LLC, a Delaware limited liability company with a principal place of business at Research Triangle Park Center, 4819 Emperor Blvd., Suite 400, Durham, NC 27703 ("Assignee").

For good and valuable consideration, the receipt of which is hereby acknowledged, Assignor, does hereby irrevocably sell, assign, transfer, and convey unto Assignee, or its designees, all right, title, and interest that exist today and may exist in the future in and to all of the following (collectively, the "Patent Rights"):

- (a)
 - (i) the patent applications and patents listed in the attached Appendix A (the "Patents");
 - (ii) patents or patent applications from which any of the patents or patent applications identified in the foregoing category (i) claims priority, and/or for which any of the patents or patent applications identified in the foregoing category (i) forms a basis for priority;
 - (iii) reissues, reexaminations, extensions, continuations, continuations in part, continuing prosecution applications, requests for continuing examinations, and divisions of any item in the foregoing categories (i) and (ii); and
 - (iv) foreign patents, patent applications and counterparts claiming priority from any item in the foregoing categories (i) through (iii), including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances;
- (b) inventions and invention disclosures described in any of the Patents that are included in any claim in the Patents;
- (c) rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial design protections, design patent protections, or other governmental grants or issuances of any type related to any of the Patents, as well as the inventions and invention disclosures assigned to Buyer under subparagraph (b) above;
- (c) causes of action and other enforcement rights under, or on account of, any of the Patents and/or the rights described in subparagraph (b) above, including, without limitation, all causes of action and other enforcement rights for (i) past and future damages, (ii) injunctive relief, and (iii) any other remedies of any kind for past, current and future infringement; and
- (d) rights to collect past and future royalties or other payments for a license under or on account of any of the Patents and/or any of the foregoing, other than as agreed upon by the parties.

Assignor hereby authorizes the respective patent office or governmental agency in each

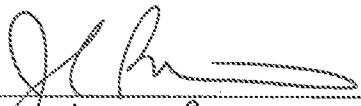

jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Patent Rights in the name of Assignee, as the assignee to the entire interest therein.

The terms and conditions of this Assignment of Patent Rights will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.

Signed at Somerset, New Jersey on December 3, 2014.
