6. Assignment of Patent Rights to Bioinformatica Clark Technology

For good and valuable consideration, and specifically pursuant to and subject to the terms and conditions of a Settlement Agreement between the Estate of Jeffrey M. Clark, M. N. Osborne, Richard Wagnon, Creation One Formulators, LLC and Bioinformatica LLC (collectively the "Settling Parties"), dated 11/1, 2012, the adequacy and the receipt of which is hereby acknowledged, Bioinformatica, LLC, ("Assignor"), a limited liability company, having an address at 3417 U of A Way (formerly 3417 E. 54th St.), Texarkana, AR 71854, does hereby sell, assign, transfer, and convey unto Creation One Formulators, LLC, a limited liability company, having an address at _____ ("Assignee"), or its designees, all right, title, and interest that exist today and may exist in the future in and to any and all of the following:

(a) the patent(s) and patent application(s) listed in the attached Exhibit B-2, which is signed by Assignor and Assignee, together with any and all research technology, research data, inventions, trade secrets, software, source code, and documentation pertaining to the technology disclosed in the patent(s) and patent applications(s) listed therein (collectively the "*Bioinformatica Clark Technology*");

(b) all the patent(s) and patent application(s) concerning or describing the *Bioinformatica Clark Technology*, including all reissues, reexaminations, extensions, continuations, continuations-in-part, continuing prosecution applications, requests for continuing examinations, divisions, registrations thereof; and all foreign patents, patent applications, and counterparts relating to any item in any of the foregoing including, without limitation, certificates of invention, utility models, industrial design protection, design patent protection; and other governmental grants or issuances, and all inventions, invention disclosures and discoveries described in any of the foregoing; and all rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial design protections, design patent protections, or other governmental grants or issuances of any type related to any item in any of the foregoing; and all causes of action (whether known or unknown or whether currently pending, filed, or otherwise) and other enforcement rights under, or on account of, the foregoing; and all rights to collect royalties and other payments under or on account of the Patents and/or any item in any of the foregoing.

((a)-(b) collectively the "*Patents*" or the "*Patent Rights*").

Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Patent Rights in the name of Assignee, as the assignee to the entire interest therein.

Upon request of Assignee, Assignor agrees to render prompt assistance and cooperation in the prosecution of legal proceedings involving said Patents, said applications and patents granted thereon, including oppositions, cancellation proceedings, priority contest, public use proceedings and court proceedings, and testify in such proceedings if requested, provided, however, that the expense which may be incurred by the Assignor in lending such assistance and cooperation be paid by Assignee.

Assignor covenants with Assignee, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the Assignor, except as set forth below, and that full right to convey the same as herein expressed is possessed by the Assignor.

The terms and conditions of this Assignment of Patent Rights will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.
