ASSIGNMENT BY INVENTORS

This Assignment is by Louis J. MATTINA, Stephen Joseph CRAMB, Brandon T. PHILLIPS, Benjamin James WHIPPLE, and Sherwin A. DAMDAR (the "Assignors"). The Assignors have invented one or more certain inventions (the "Invention(s)") described in an application for Letters Patent of the United States titled **"WEARABLE RUBBER PARTS FOR FLUID HANDLING SERVICES INCLUDING A POLYURETHANE INNER LAYER,"** (the "Applications") as identified below:

- U.S. Utility Patent Application No. **14/592,768** filed on **January 8, 2015**
- International Patent Application No. **PCT/US15/10659** filed **January 8, 2015**;

Garlock Sealing Technologies, LLC, having its principal place of business at 1666 Division Street, Palmyra, NY 14522 ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s) and the Applications, and in and to any patents (collectively, "Patents") that may be granted for the Invention(s) in the United States or in any foreign countries.

For valuable consideration, the receipt and sufficiency of which Assignors acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Applications, and any Patents; any divisions, continuations, and continuations-in-part of the Applications and any other application claiming priority rights from the Applications; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Applications (collectively, the "Rights"). Assignors warrant that Assignors own the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights.

Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee. This Assignment may be executed in counterparts.
