CORRECTED ASSIGNMENT

U.S. Patent No.: 7,980,384

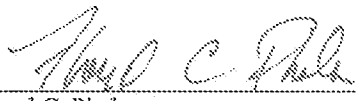

On June 16, 2009, I, Floyd C. Phalen, signed an Assignment of U.S. Patent No. 7,980,384 to "Hapman, Inc." which was recorded in the United States Patent and Trademark Office on June 30, 2009, at reel 022891 and frame 0493. I have since been advised that "Hapman, Inc." is not a legal entity but, instead, "Hapman" is a division of Prab, Inc. Accordingly, I am signing this Corrected Assignment to Prab, Inc.

In Consideration for good and valuable considerations, the receipt of which is hereby acknowledged, the undersigned hereby assigns the entire right, title and interest in the invention and improvements in TENSIONING DEVICE FOR DRAG CONVEYOR, United States Patent No. 7,980,384 and any reissue or extension thereof that may be granted upon said patent to Prab, Inc. and the heirs, successors, legal representatives and assigns of Prab, Inc. (hereinafter collectively called said Assignee).

For said considerations it is hereby agreed by the undersigned, upon the request of said Assignee, to execute any necessary and proper oaths or affidavits relating to said application or required for the filing or prosecution of any divisional or continuing application thereof or for the filing or prosecution of any application for the reissue or extension of any Letters Patent that may be granted on said invention or improvements that said Assignee may deem necessary or expedient, and for the said considerations it is further agreed by the undersigned, upon the request of said Assignee, in the event of said application or any division thereof, or Letters Patent issued thereon, or any reissue or application for the reissue thereof, becoming involved in Interference, or other administrative proceeding, to cooperate to the best of the ability of the undersigned with said Assignee in the matters of preparing and executing the preliminary statement and giving and producing evidence in support thereof, and further to perform, upon such request, any and all affirmative acts to obtain said Letters Patent and vest all rights therein hereby conveyed in the said Assignee as fully and entirely as the same would have been held and enjoyed by the undersigned if this assignment and sale had not been made. And for the said considerations the entire right, title and interest in said invention or improvements, including all priority rights, and the right to claim priority rights and the privileges and benefits thereof, including those under the International Convention, and all other Conventions, and the right to file applications for patent in said Assignee's own name for said invention or improvements in each and every country of the world are hereby assigned and granted by the undersigned to said Assignee. It is further agreed by the undersigned, upon the request of said Assignee, to execute any and all documents that shall be required of the undersigned to be executed in connection with any and all applications for foreign Letters Patent therefor, including the prosecution thereof, and to execute any and all documents necessary to invest title in said foreign applications and patents in said Assignee. The undersigned also further agrees, for the said considerations, upon the request of said Assignee, to promptly perform all lawful acts deemed by said Assignee to be necessary or advisable in connection with maintaining, enforcing, or transferring the resulting grants of said Letters Patent in the United States or foreign countries. It is agreed that such lawful acts include, but are not limited to, taking oaths, executing declarations, powers, assignments and other papers and giving testimony. The attorneys of record in said application for

patent are hereby authorized and requested by the undersigned to insert in this Assignment the date and application number thereof in the places provided therefor.
