ASSIGNMENT

We, **Peter J. Cronk** and **Kristen Cronk**, of 919 McElwee Road, Moorestown, NJ 08057, hereby declare that we are the inventors of the inventions relating nasal dilators, in world-wide Letters Patent, filed herewith and identified in Schedule A, attached hereto.

For valuable consideration received, we hereby sell, assign, and transfer to **Winter Breath LLC**, a Limited Liability Company (the "Company"), with its principal place of business located at 30 South 17th Street, Philadelphia, PA 19103, duly organized and existing under the laws of the state of Delaware, its successors and assigns, our entire right, title, and interest, for all countries in and to said inventions, and all the rights and privileges under any and all applications and Letters Patent that may be granted therefore, and any divisions, continuations-in-part, re-examinations, continuations, reissues, and extensions thereof.

We agree that, when requested, we will, without charge to said Company but at its expense, sign all papers, take all rightful oaths, make all rightful declarations, and do all acts which may be necessary, desirable or convenient for securing and maintaining patents or other forms of protection for said inventions in any and all countries, and for vesting title thereto in said Company, its successors, assigns or nominees.

We agree that we will communicate to said Company or its representatives any facts known to us respecting said inventions and, when requested by said Corporation and at its expense, will testify in any legal proceedings, and generally do everything possible to aid said Company, its successors, assigns, and legal representatives or nominees, to obtain or enforce proper protection for said inventions in any and all countries.

We authorize and empower said Company, its successors, assigns or nominees, to make applications for patent or other form of protection for said inventions in its or their own name, or in our name, in any and all countries, and to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from us.

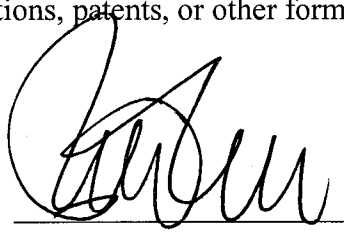

We hereby consent that a copy of this Assignment shall be deemed a full, legal, and formal equivalent of any Assignment, consent to file or like document, which may be required in any country for any purpose, and more particularly, in proof of the right of the said Company or its successors, assigns or nominees to apply for patent or other proper protection for said inventions, and to claim the aforesaid benefits of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it.

We covenant with the Company, its successors, assigns, legal representatives, and nominees, that to the best of our knowledge the right, title, and interest herein conveyed by us, is free and clear of any encumbrance, and that we have full right to convey the same as herein expressed.

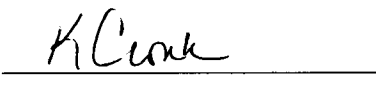

We request that any and all patents for said inventions be issued to Winter Breath LLC in the United States and in all countries foreign to the United States, or to such nominees Winter Breath LLC may designate.

We agree that, when requested, we shall, without charge to Winter Breath LLC, but at its expense, sign all papers, and do all acts which may be necessary, desirable or convenient in connection with said applications, patents, or other forms of protection.
