**ASSIGNMENT OF INVENTION**

WHEREAS, we, **Philipp Steinberger**, having an address of Bergstrasse 13, 96450 Coburg, Germany, **Joram Masel**, having an address of Strauer Torweg 8, 96317 Kronach, Germany, **Christopher Curth**, having an address of Am Schwaedrich 3, 96465 Neustadt, Germany, **Hans-Juergen Henning**, having an address of Schlesier Strasse 35, 96237 Ebersdorf, Germany, and **Daniel Steiner**, having an address of Schichtshoehner Strasse 31, 96529 Mengersgereuth-Haemmern, Germany, have invented certain new and useful improvements for a **"FUSE LOAD-BREAK SWITCH FOR LOW-VOLTAGE HIGH-POWER FUSES"**, for which we made application for Letters Patent of the United States on February 25, 2015, which application received Application Number 14/631,034;

AND WHEREAS, **Woehner GmbH & Co. KG Elektrotechnische Systeme**, a foreign entity having an address at Moenchroedener Strasse 10, 96472 Roedental, Germany, hereinafter called the "Assignee," desires to acquire all right, title and interest in and to said invention and patent application within the United States and its territorial possessions, and any United States Letters Patent that may be granted therefor.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, and with the intention of being legally bound hereby, we confirm that we have sold, assigned and transferred, and do hereby sell, assign and transfer to said Assignee the entire right, title and interest in and to our invention and patent application within the United States of America and its territorial possessions, and in and to any Letters Patent of the United States that may be granted therefor, including all divisions, continuations, continuations-in-part, reissues, reexaminations, and extensions thereof, together with the right to extend the protection of said United States Letters Patent to the various territorial possessions now owned or which may be hereafter acquired by the United States of America, all said rights to be held and enjoyed by the Assignee for its use and benefit and for the use and benefit of its successors or assigns, to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held and enjoyed by us if this assignment and sale had not been made. And we do hereby request and authorize the United States Commissioner of Patents and Trademarks to issue all said Letters Patent, when granted, in accordance with the terms of this assignment.

We further covenant and agree with the Assignee that we have full and unencumbered title to the invention and patent application herein assigned, which title we warrant unto the Assignee, and we further agree that, when requested, we will, without demanding any further consideration therefor but at the expense of Assignee, do all lawful and just acts, including the execution and acknowledgement of instruments, that may be or become necessary for obtaining, sustaining or reissuing United States Letters Patent for the said invention and patent application, and for maintaining and perfecting the Assignee's right to said invention, patent application and Letters Patent particularly in cases of interference and litigation.

IN WITNESS WHEREOF, we, the said inventors have executed this Assignment under seal.
