PATENT TRANSFER AGREEMENT

This PATENT TRANSFER AGREEMENT (this "Agreement") is entered into as of February 25, 2015 (the "Effective Date") by and between:

- (1) LG Electronics Inc. reg. no. 107-86-14075 a limited liability company incorporated under the laws of Republic of Korea, and having its registered office at LG Twin Towers, 20 Yeouido-dong, Youngdeungpo-gu, Seoul 150-721 Korea (the "Assignor"); and
- (2) Telefonaktiebolaget LM Ericsson (PUBL), reg. no. 556016-0680 a limited liability company incorporated under the laws of Sweden, and having its registered office at 164-83 Stockholm Sweden (the "Assignee");

WITNESSETH:

WHEREAS, Assignor has agreed to transfer its rights, title and interest in and to the Assigned Patents (as defined below) to Assignee.

NOW, THEREFORE, in consideration of the foregoing and the mutual promises and agreements contained in this Agreement, and for other good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Assignment. Assignor hereby sells, transfers, assigns and conveys to Assignee all of its right, title, and interest throughout the world (under any and all laws and in any and all jurisdictions) in and to U.S. Patent No. 8,078,134 (the "'134 Patent") and any patent or patent application that claims priority to the '134 patent including any continuation, divisional, continuation-in-part, foreign counterpart, reissue or reexamination (collectively, the "Assigned Patents"), in each case, subject to all existing encumbrances. Pursuant to the foregoing assignment, each of the Assigned Patents shall hereafter be for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors and assigns, as fully and entirely as the same would have been held and enjoyed by the applicable Assignor if this Agreement had not been made. The foregoing assignment includes, without limitation, the rights of Assignor, if any, to (A) register or apply in all countries and regions for patents, utility models, design registrations and like rights of exclusion and for inventors' certificates for the Assigned Patents; (B) prosecute, maintain and defend the Assigned Patents before any public or private agency, office or registrar including by filing reissues, re-examinations, divisions, continuations, continuations-in-part, substitutes, extensions and all other applications and post issue proceedings included in the Assigned Patents; (C) claim priority based on the filing dates of any of the Assigned Patents under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, the Paris Convention, and all other treaties of like purposes; and (D) sue and recover damages or other compensation for past, present or future infringements thereof, the right to sue and obtain equitable relief, including injunctive relief, in respect of such

infringements, and the right to fully and entirely stand in the place of the applicable Assignor in all matters related to the Assigned Patents.

2. Authorization. Assignor also hereby expressly authorizes the respective patent office or governmental agency in each and every jurisdiction worldwide (including the Commissioner of Patents and Trademarks in the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign countries or multinational authorities) (the "Applicable IP Offices") to: (A) issue any and all patents or certificates of invention or equivalent which may be granted upon any of the Assigned Patents in the name of Assignee, as the assignee to the Assignor's interest therein; and (B) record Assignee as the assignee of the Assigned Patents and to deliver to Assignee, and to Assignee's attorneys, agents, successors or assigns, all official documents and communications as may be warranted by this Agreement.

3. Further Assurances. Each party hereby agrees to execute and deliver to the other party all necessary documents and take all necessary actions reasonably requested by such party from time to time to confirm or effect the assignments set forth in this Agreement, or otherwise to carry out the purposes of this Agreement, including, without limitation, by providing executed originals of short-form assignment agreements entered into by Assignor and Assignee on the Effective Date for filing or otherwise evidencing the assignments set forth in this Agreement with the Applicable IP Offices; provided, however, that nothing contained herein shall obligate Assignor to incur any cost or pay any expense in connection therewith.

4. Governing Law. This Agreement shall be governed by the laws of New York.

5. General Provisions. This Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, and all of which together shall constitute one and the same instrument. Delivery of an executed counterpart of a signature page to this Agreement by facsimile or electronic mail shall be as effective as delivery of a manually executed counterpart of this Agreement. This Agreement may not be supplemented, altered, or modified in any manner except by a writing signed by all parties hereto. This Agreement shall not be construed as amending or superseding any written agreement entered into by the parties prior to or contemporaneous with this Agreement relating to the subject matter hereof. The failure of any party to enforce any terms or provisions of this Agreement shall not waive any of its rights under such terms or provisions.
