CONFIDENTIALITY AND INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

By Shane Gilbreath for Next Technologies, Inc.

In consideration and as a condition of my employment or engagement as a consultant, contractor, or otherwise by Next Technologies, Inc. and any compensation or other benefits provided to me by Next Technologies, Inc. I, Shane Gilbreath, agree to as follows:

1. **Confidentiality.** To safeguard and not to disclose confidential information of Parnative, Inc. including: (a) patent information; (b) matters of a technical nature; (c) matters of a business nature; and (d) other information of a similar nature which is not generally disclosed by Parnative, Inc. to the public, referred collectively hereafter as "Confidential Information". I further agree that I will not use Confidential Information except as may be necessary to perform my duties for Parnative, Inc. Upon termination of my employment or engagement as a consultant or contractor or inventor by Next Technologies, Inc. or otherwise as requested, I will deliver promptly to Parnative, Inc. all Confidential Information, in whatever form, that may be in my possession or under my control.

2. Assignment of Intellectual Property.

a. I hereby assign and agree to assign to Next Technologies, Inc. all rights to all Intellectual Property disclosed in the United States Design Patent Application 29/488,759 entitled:

"Desktop Cable Cover"

and any utility, Patent Cooperation Treaty (PCT), continuations, continuations-in-part, divisional US and foreign patent applications and issued patents claiming priority to said provisional application.

b. This Agreement operates as an actual assignment of all those rights to Next Technologies, Inc. This assignment does not apply to and Next Technologies, Inc. shall not claim any interest in material created or registered, copyrighted, trademarked, or patent application filed or patent issued prior to, during, or after my collaboration with, or employment or engagement by Next Technologies, Inc. that is not associated with my duties for Next Technologies, Inc.

c. I will execute all necessary papers and otherwise provide proper assistance, promptly upon Next Technologies, Inc.'s request and at Next Technologies, Inc.'s expense, during and subsequent to the period of my Next Technologies, Inc. affiliation, to enable Next Technologies, Inc. to obtain, maintain, or enforce for itself or its nominees, patents, copyrights, trademark, know how or other legal protection for such Intellectual Property.

3. **Equitable Relief.** That violation of the covenants in this Agreement will cause irreparable injury to Next Technologies, Inc. and that any remedy at law will be inadequate. Therefore, Next Technologies, Inc. shall be entitled to, in addition to any other rights or remedies it may have at law or in equity, injunctive relief.

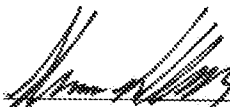

4. **Continuation of Obligations.** That my obligations and the restrictions under this Agreement shall continue indefinitely after termination of my relationship with Next Technologies, Inc.

5. **Entire Agreement; Amendment.** That this is the entire Agreement with Next Technologies, Inc. with respect to its subject matter. This Agreement may be modified, amended or terminated only by an agreement in writing executed by Next Technologies, Inc. and me.

6. **Successors and Assigns; Venue.** That this Agreement shall be binding upon my heirs, executors, administrator or other legal representatives and is for the benefit of Next Technologies, Inc. its successors and assigns. I irrevocably consent and submit to the exclusive and personal jurisdiction of the United States District Court of Williamson County, and if such court does not have jurisdiction over such matter, then the applicable United States court.

7. Furthermore, I represent that, except as identified on pages attached hereto: (i) I have not executed any agreements with or incurred any obligations to others in conflict with the foregoing; and (ii) I will not, while bound by this Agreement, enter into any other agreements, or otherwise incur any obligation, that conflict with the foregoing.
