ASSIGNMENT

WHEREAS, we, David Grundfast of Brighton, Massachusetts, Jesse Lopez of Newtonville, Massachusetts, and Raymond Giles of Brighton, Massachusetts (the "Inventors") have invented certain new and useful improvements in SYSTEM AND METHOD OF ADVERTISING FOR USE ON INTERNET AND/OR DIGITAL NETWORKING CAPABLE DEVICES, for which a United States provisional patent application has been made, and which may be identified in the United States Patent and Trademark Office by Application No. 61/309,690, filed 2 March 2010, and for which an application for Letters Patent of the United States has been made, and which may be identified in the United States Patent and Trademark Office by Application No. 12/828,830, filed 1 July 2010 (the "Invention").

WHEREAS, Obelus Media Inc. ("Assignee"), a business entity organized and existing under the laws of the State of Massachusetts, and having its principal offices at 9 Edenboro Terrace, Newton, MA 02460, is desirous of acquiring the entire right, title and interest in and to said Invention, said applications and in, to and under any and all Letters Patents to be obtained therefor;

NOW, THEREFORE, for good and valuable consideration to us in hand paid by said Assignee, the receipt of which is hereby acknowledged, we Inventors have sold, assigned and transferred, and by these presents do hereby sell, assign and transfer unto the said Assignee, its successors and assigns, our entire right, title and interest in and to said Invention, said applications, all applications claiming priority to said applications including all design patents, CPAs, utility patents, all divisions, continuations or renewals thereof, continuation in parts, and the Letters Patents, both foreign and domestic, that may or shall issue, therefrom including all reissues or extensions of such patents including all of our rights under the International Convention, and we do hereby authorize and request the Commissioner of Patents to issue said Letters Patent to the above mentioned Assignee in accordance herewith.

We Inventors hereby authorize the above mentioned Assignee, its successors and assigns, or anyone it may properly designate, to insert in this instrument the date of execution and/or filing date and application number of said application when ascertained.

We Inventors further authorize said Assignee, its successors and assigns, or anyone it may properly designate, to apply for Letters Patents, in its own name if desired, in the USA and any and all foreign countries, and additionally to claim the filing date of said United States application and/or otherwise take advantage of the provisions of the International Convention.

Upon said consideration we Inventors do hereby covenant and agree with the said Assignee, its successors and assigns, that we will not execute in writing or do any act whatsoever conflicting with these presents, and that we or our executors or administrators will at any time upon request, without further or additional consideration, but at the expense of the said Assignee, its successors and assigns, execute such additional writings and do such additional acts as said Assignee, its successors and assigns, may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all

necessary assistance in making application for and obtaining original, divisional, reissued or extended Letters Patent of the United States, or of any and all foreign countries on said invention, and in enforcing any rights occurring as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents.

IN WITNESS WHEREOF, we Inventors have hereunto set our hands and affixed our seal as dated below.
