WHEREAS, the Grantor has entered into that certain Patent Security Agreement, dated as of September 29, 2010 with the Lender (as at any time prior to the date hereof amended, supplemented or otherwise modified, the “Security Agreement”), pursuant to which the Grantor granted to the Lender and its successors and assigns, for its and their benefit, as security for the Obligations of the Grantor, a continuing security interest in all right, title and interest of the Grantor in, to and under the following, whether then existing or thereafter created or acquired:

- (2) each patent license, including, without limitation, each patent license listed on Schedule 1 annexed hereto, and any inventions or improvements later added to said license;
- (3) all products and proceeds associated with the foregoing, including, without limitation, any claim by the Grantor against third parties for past, present or future infringement of any issued or pending patent, including, without limitation, any issued patent or patent application referred to in Schedule 1 annexed hereto, and all inventions or improvements therein and in and to letter patents of the U.S. and all foreign countries which may be granted on said inventions, or any divisionals, continuations, reissue or other applications based in whole or in part hereon, and any patent licensed under any patent license listed on Schedule 1 annexed hereto (items 1 through 3 being herein collectively referred to as the “Patent Collateral”).
