PATENT ASSIGNMENT

This Patent Assignment (the "Patent Assignment") is made and entered into on April 28, 2015 by and between Buck Bomb, Inc. (f/k/a Mold Medic, Inc.), a Maryland corporation ("Assignor"), and Buck Bomb Products, LLC, a Delaware limited liability company ("Assignee").

WHEREAS, Assignor is the sole and exclusive owner of the United States patent and patent applications listed on the attached Schedule A, and of the inventions or improvements disclosed therein (all hereinafter collectively referred to as the "Patents");

WHEREAS, Assignee is acquiring the Patents from Assignor pursuant to the terms of that certain Asset Purchase Agreement (the "Purchase Agreement"), dated as of April 28, 2015, by and among Assignor, Assignee, Richard Schmidt and Clifford Darren Brown; and

WHEREAS, Assignor wishes to herein memorialize said assignment, transfer and sale of the Patents to Assignee.

NOW, THEREFORE, TO ALL WHOM IT MAY CONCERN, be it known that for good and valuable consideration set forth in the Agreement, and other valuable and legally sufficient consideration, the receipt and legal sufficiency of which is hereby acknowledged, the Assignor has sold, assigned and transferred, and by these presents does sell, assign and transfer unto the Assignee, all right, title and interest in and to the Patents, and any continuations, continuations-in-part, divisions, reissues, reexaminations, extensions, and foreign patents and patent applications thereof, and any rights to file applications and receive patents thereon, the same to be held and enjoyed by the Assignee for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives, to the end of the term or terms for which the said Patents are or may be granted or reissued, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment and sale had not been made, together with all claims for past and future damages by reason of infringement of same, with the right to sue for past and future damages and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives.

AND, the Assignor hereby requests the United States Commissioner of Patents and Trademarks (the "Commissioner"), as well as his or her foreign counterparts in the foreign jurisdictions which exercise authority over any of the Patents to record this Patent Assignment. The Assignor hereby further requests the Commissioner and his or her foreign counterparts to issue any and all patents resulting from applications among the Patents or derived therefrom to Assignee as assignee of the entire interest.

AND, the Assignor hereby warrants and covenants that it has full right to convey the entire interest herein assigned, and that the Assignor has not executed, and will not execute, any agreement inconsistent herewith.

AND, the Assignor, for itself and its successors and assigns, hereby covenants and agrees that at any time and from time to time forthwith upon the request of the Assignee, the Assignor

will, at its expense, do, execute, acknowledge and deliver or cause to be done, executed, acknowledged and delivered, all such further acts, deeds, instruments, transfers and assurances as may be reasonably required by the Assignee in order to assign, transfer, set over and convey unto, and vest in, the Assignee, its respective successors and assigns, any or all of the Patents, and to put the Assignee in actual possession and operating control thereof, free and clear of all liens, to assist the Assignee in exercising all rights with respect thereto and to assure the Assignee of the full benefits thereof.

AND, the Assignor hereby constitutes and appoints the Assignee and its successors and assigns as its true and lawful attorneys in fact in connection with the transactions contemplated by this instrument, with full power of substitution to demand and receive, in the name and stead of the Assignor but on behalf of and for the benefit of the Assignee and its successors and assigns, any and all of the assets, properties, rights and business hereby conveyed, assigned, and transferred or intended so to be, and to give receipt and releases for and in respect of the same and any part thereof, and from time to time to institute and prosecute, in the name of the Assignor or otherwise, for the benefit of the Assignee or its successors and assigns, proceedings at law, in equity, or otherwise, which the Assignee or its successors or assigns deem proper in order to collect or reduce to possession or endorse any of the Patents, and to do all acts and things in relation to such assets which the Assignee or its successors or assigns reasonably deem desirable.
