Section 1.4, sentences 4 through 6 of the APA are hereby amended insofar, sentence 5 is deleted.
6. Co-Ownership Rights and Contingent Right to Title. To the extent Assignor currently holds a co-ownership right or a contingent right to title (such as an *Anwartschaftsrecht* under German law) in any of the Assigned IP, the sale, transfer and assignment under this Assignment includes such co-ownership rights and contingent right to title.
7. Further Assurances. Assignor shall promptly do, make, execute, or deliver, or cause to be done, made, executed, or delivered, all such further acts, documents, and things as are necessary to transfer ownership of the Assigned Patents, Assigned Trademarks, Assigned Copyrights and Assigned Know-How (collectively called the "Assigned IP") to Assignee and to properly document the same, and for Assignee to record or register the Assigned IP with the relevant official office or registry.
8. Liabilities; Indemnification. Assignee is not assuming any of the liabilities or obligations relating to the Assigned IP that are based in whole or in part on any facts or circumstances that existed on or prior to the effective date of this Agreement. Assignor shall indemnify, defend and hold harmless Assignee and all of Assignee's members, managers, officers and employees against any and all losses relating to, arising out of or incurred in connection with the Assigned IP on or prior to the effective date of this Assignment or any claim that any of the Assigned IP infringes on any intellectual property or other rights of any other person.
