ASSIGNMENT OF RIGHTS: PATENT APPLICATION

I:

Moshe Rogosnitzky\37
Yitzchak St. Kiryat Ye'arim
Israel

(hereinafter the Inventor(s))

hereby assign all rights title, and interest to the invention described in: a patent specification identified as attorney docket ROG/007 entitled "METHODS FOR TREATING EYE DISORDERS USING OPIOID RECEPTOR ANTAGONISTS" and filed the same day as this assignment is registered.

(hereinafter the "assigned application")

To Remedeye Inc.
1521 Concord Pike #303
Wilmington; New Castle DE 19803 USA
(hereinafter the Assignee).

By signing below, Inventor(s) acknowledge the receipt of valuable consideration for assignment of the rights to the invention described in the assigned application.

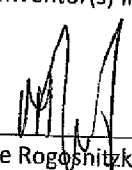

By signing below, Inventor(s) also assign all foreign applications, divisional applications, continuation applications, continuation in part applications, substitute applications or international applications which claim a right of priority to the filing date of the assigned application (either directly or through an intervening application) as well as to any patents resulting from re-issue, re-examination or post-grant review proceedings (herein after "related applications").

By signing below, Inventor(s) indicate(s) that this assignment remains in force for the full term of the assigned application and/or any related applications.

By signing below, Inventor(s) authorize(s) the United States Patent and Trademark Office and/or the Patent Office of any other country where a related application is filed to grant any Patents resulting from the assigned application, or related applications, to the Assignee. The right, title and interest is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as it would have been held and enjoyed by the Inventor(s) had this assignment not been made.

By signing below, Inventor(s) agree(s) to: (a) cooperate with Assignee in the prosecution of the assigned application and all corresponding applications; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent for the invention in any and all countries; (d) authorize Assignee to sign documents related to the assigned application and/or any related applications on behalf of the Inventor(s) in the event that they are unavailable or uncooperative.

Date: 3/3/15
