**SOLE TO CORPORATE ASSIGNMENT**

WHEREAS, the undersigned, Yong Jin Lee, a resident of Palo Alto, California, (hereinafter termed "Inventor"), has invented certain new and useful improvements in:

LAPEL ADAPTER FOR PHYSIOLOGICAL SENSOR POD

*and has executed a declaration for an application for a United States Patent disclosing and identifying the invention, the declaration being executed on 2/10/2015, said application claiming priority to United States Provisional Patent Application No. 62/099,931, filed January 5, 2015.*

WHEREAS Salutron, Inc. (hereinafter termed "Assignee"), a corporation of the State of California, having a place of business at 47787 Fremont Blvd., Fremont, State of California, 94538, wishes to acquire the entire right, title and interest in and to said application and the invention disclosed therein, and in and to all embodiments of the invention, heretofore conceived, made or discovered by said Inventor (all collectively hereinafter termed "said invention"), and in and to any and all patents, certificates of invention and other forms of protection thereon (hereinafter termed "patents") applied for or granted in the United States and/or other countries.

NOW THEREFORE, for good and valuable consideration acknowledged by said Inventor to have been received in full from said Assignee:

1. Said Inventor does hereby sell, assign, transfer and convey unto said Assignee, the entire right, title and interest (a) in and to said application and said invention; (b) in and to all rights to apply in any and all countries of the world for patents, certificates of inventions or other governmental grants on said invention, including the right to apply for patents pursuant to the International Convention for the Protection of Industrial Property or pursuant to any other convention, treaty, agreement or understanding; (c) in and to any and all applications filed and any and all patents, certificates of inventions or other governmental grants granted on said invention in the United States or any other country, including each and every application filed and each and every patent granted on any application which is a division, substitution, or continuation of any of said applications; (d) in and to each and every reissue or extension of any of said patents; and (e) in and to each and every patent claim resulting from a reexamination certificate for any and all of said patents.

2. The terms and covenants of this Assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventor, said Inventor's heirs, legal representatives and assigns.

3. Said Inventor hereby warrants and represents that said Inventor has not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

WHEREAS, said Inventor has executed this instrument on the date as given below and delivered this instrument to said Assignee:
