ASSIGNMENT

WHEREAS, SOLON Corporation, having an address at 3840 S. Palo Verde; Tucson, Arizona, 85714; United States of America,

hereinafter referred to as Assignor, owns certain inventions described in:

U.S. Patent No. 8,307,606, issued on November 13, 2012, in the United States; and

U.S. Patent No. 8,316,618, issued on November 27, 2012, in the United States; and

U.S. Patent No. 8,316,619, issued on November 27, 2012, in the United States; and

U.S. Patent No. 8,336,277, issued on December 25, 2012, in the United States; and

U.S. Patent Application Serial No. 14/079,575, filed on November 13, 2013, in the United States and

WHEREAS, PI Solar Technology GmbH, having an address at Wrangelstrasse 100; 10997 Berlin; Germany,

hereinafter referred to as Assignee, is desirous of acquiring the entire domestic and foreign right, title, and interest in and under the invention described in the above patents and patent application.

NOW, THEREFORE, for good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged, Assignor assigns and transfers to the Assignee and the Assignee's legal representatives, successors and assigns the full and exclusive rights in and to the inventions in the U.S. and every foreign country and the entire right, title, and interest in and to the above patents and patent application and other such applications (e.g., provisional applications, non-provisional applications, continuations, continuations-in-part, divisionals, reissues, reexaminations, National phase applications, including petty patent applications, and utility model applications) that may be filed in the United States and every foreign country on the inventions, and the patents, extensions, or derivations thereof, both foreign and domestic, that may issue thereon, and Assignor does hereby authorize and request the Commissioner of Patents to issue U.S. patents to the above-mentioned Assignee agreeably with the terms of this assignment document.

UPON SAID CONSIDERATION, Assignor conveys to the Assignee the right to make applications in its own behalf for protection of the inventions in the U.S. and countries foreign to the U.S. and to claim under the Patent Cooperation Treaty, the International

Convention and/or other international arrangement for any such applications the date of the U.S. applications (or any other applications on the inventions) to gain priority with respect to other applications.

ASSIGNOR DOES HEREBY COVENANT and agree with the Assignee that Assignor will not execute any writing or do any act whatsoever conflicting with the terms of this assignment document set forth herein, and that Assignor will at any time upon request, without further or additional consideration, but at the expense of the Assignee, execute such additional assignments and other writings and do such additional acts as the Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this assignment, and render all necessary assistance in making applications for and obtaining original, continuation, continuation-in-part, divisional, reissued, reexamined, and National phase patents of the U.S. or of any and all foreign countries on the inventions, and in enforcing any rights or choses in action accruing as a result of such applications or patents, and by executing statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of, the assigns and legal representatives of all parties hereto.

By signing below, the named individuals are making a declaration that they are officers or authorized representatives of their respective organizations and have full authority to act on their behalf, and that the above statements are true.
