ASSIGNMENT & DECLARATION

WHEREAS, I, Norberto **MELJOME** (hereinafter "**Assignor**"), has invented certain new and useful inventions for which a patent application entitled "**STREAM RECOGNITION AND FILTERING**," has been prepared and filed in the United States Patent and Trademark Office on March 27, 2015, receiving application no. 14/671,695, and further identified as Attorney Docket No. 2618-0605 (36-00014).

NOW THEREFORE, for good and valuable consideration, receipt and sufficiency of which are acknowledged, Assignor has agreed to assign and transfer and does hereby assign and transfer unto **ALTNET, INC.** ("**Assignee**"), a Delaware Company, and having an address 13351 Riverside Drive, #442, Sherman Oaks, California 91423, U.S.A. its successors and assigns, the entire right, title, and interest in and to said invention and applications, and in and to any application from which said application claims priority, any divisional or continuation (in whole or in part) of said application, and in and to any and all improvements in said invention made by Assignor (provided any such improvement is made during, or within one year after the termination, of the employment by said Assignee of Assignor or any related entity), and in and to any and all Letters Patent, reexaminations, reissues, or extensions thereof, of the United States of America and countries, foreign thereto (including the right to apply for Letters Patent, Utility Models, or Inventors' Certificates in foreign countries in its own name and to claim any priority rights for such foreign applications to which such applications are entitled under international conventions, treaties, or otherwise), which have been or may be granted thereon or on any divisional, continuation (in whole or in part), renewal, reexamination, reissue, or other or further application based in whole or in part upon said invention or improvements thereon, to be held and enjoyed as fully and exclusively as they would have been by me had this assignment and transfer not been made;

Assignor further agrees for Assignor and for Assignor's heirs, executors, and administrators, to execute and deliver without further consideration any further applications, assignments, and documents, and to perform such other acts as Assignor lawfully may, that may be deemed necessary by said Assignee, its successors, assigns, and nominees, fully to secure its right, title, and interest as aforesaid to obtain to maintain Letters Patent, Utility Models, or Inventors' Certificates in any and all countries;

Assignor hereby authorizes Assignee, its successors and assigns, or anyone it may properly designate, to insert in this instrument the application number and filing date of the Patent Application once known;

Assignor hereby acknowledges an obligation of assignment and transfer of this invention to Assignee at the time the invention was made;

Assignor and Assignee hereby agree that this assignment is governed by the laws of the state of California of the United States of America and subject to the non-exclusive jurisdiction of the courts of the state of California of the United States of America; and

Assignor hereby authorizes and requests the Commissioner of Patents to issue any and all Letters Patent which may be granted upon any of said applications, to said Assignee, as the assignee of the entire right, title, and interest therein.

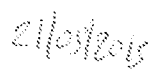

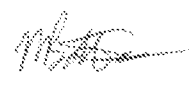

DECLARATION: Assignor further declares that:

(A) The above-identified application was made or authorized to be made by me.
