The undersigned inventor/designer hereby affirms that:

To the extent that my previous agreement or obligation to assign patent/design rights (including by operation of law) is valid, the present document is confirmatory.

To the extent that my previous agreement or obligation to assign patent/design rights is valid (including by operation of law), and to the extent that retroactive assignment is permissible, I hereby assign as follows as of the date of my previous signature/obligation.

and,

(b) in any and all application(s) that claim the benefit of the patent applications listed above in part (a), including non-provisional applications, continuing (continuation, divisional, or continuation-in-part) applications, reissues, extensions, renewals, and reexaminations of the patent applications or Letters Patents therefor listed above in part (a), to the full extent of the term or terms for which Letters Patents issue, and

(c) in any and all invention(s) described in the patent applications listed above in part (a), and in any and all forms of intellectual and industrial property protection derivable from such patent applications, and that are derivable from any and all continuing applications, reissues, extensions, renewals, and reexaminations of such patent applications, including, without limitation, patents, applications, utility models, inventor's certificates, and designs together with the right to file applications therefor; and including the right to claim the same priority rights from any previously filed applications under the International Agreement for the Protection of Industrial Property, or any other international agreement, or the domestic laws of the country in which any such application is filed, as may be applicable;

all such rights, title and interest to be held and enjoyed by the above-named Assignee, its successors, legal representatives and assigns to the same extent as all such rights, title and interest would have been held and enjoyed by the Assignor had this assignment and sale not been made.
