## PATENT ASSIGNMENT AGREEMENT

This Patent Assignment Agreement is being executed and delivered by UECKER & ASSOCIATES, as Assignee for the Benefit of Creditors ("Assignee") for Clovershield, Inc., a California corporation, ("Seller") pursuant to that certain Asset Purchase Agreement (the "Agreement") dated as of April 17, 2015, by and between Seller and lReady, LLC, a California limited liability company ("Purchaser"). Capitalized terms not otherwise defined herein shall have the respective meanings set forth in the Agreement.

For good and valuable consideration, receipt of which is hereby acknowledged, and by signing and delivering this instrument, Seller hereby sells, assigns, transfers, conveys, and delivers to Purchaser, its successors, assigns, and legal representatives, pursuant to the Agreement, all of Seller's right, title, and interest in and to:

(a) the patents, patent applications and invention disclosures specifically listed in Annex A to this Patent Assignment; and

(b) the following properties and rights with respect to all patents and patent applications so listed in Annex A:

(1) the inventions claimed or described in the patents or applications,

(2) any patents in the United States and anywhere else in the world and patent applications that have been or may be granted or filed, respectively, with respect to those inventions, including without limitation all foreign patents or patent applications that may claim priority based on and correspond to the patents listed in Annex A,

(3) all divisions, renewals, reexaminations, reissues, continuations, extensions, and continuations-in-part of the foregoing patents and patent applications,

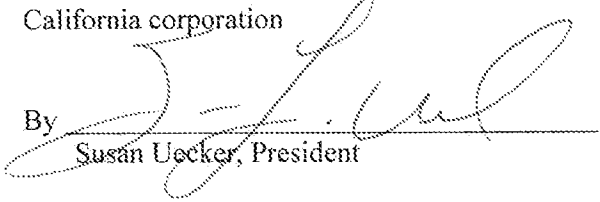

(4) all income, royalties, damages, and payments due or payable to Seller with respect to the foregoing patents and patent applications, including without limitation unpaid damages and payments for past, present, and future infringements of any patent, and

(5) all rights to sue and recover damages and payments for past, present, and future infringements of any of the patents, including the right to fully and entirely replace Seller in all related matters.

The foregoing rights in and under the foregoing patents, patent applications, and inventions shall apply to the full end of their terms as fully as Seller would have held the same in the absence of this assignment. As of the date set forth below, Purchaser has succeeded to all right, title, and standing of Seller to (a) receive all rights and benefits pertaining to the patents described above, and (b) commence, prosecute, defend and settle all claims and take all actions that Purchaser, in its sole discretion, may elect in relation to the patents and rights described above. This Patent Assignment (a) is irrevocable and effective upon Seller's signature to and delivery of a manually signed copy of this instrument or facsimile or email transmission of the signature to this instrument in connection with the Agreement, (b) benefits and binds the parties to the Agreement and their respective successors and assignees, (c) does not modify or affect, and is subject to, the provisions of the Agreement, and (d) may be signed in counterparts as provided in the Agreement.
