Project name Invention disclosure type A or B	Order number	Decimal number	Sub number/HG
Issued by Jan-Erik Lundmark	Department RS	Telephone 82860	

**Siemens Industrial Turbomachinery AB has received the Invention Disclosure "Fuel film formed by air blast", registered it as F09-018 and intends to establish a classification of the invention announced.**

According to Swedish law the ownership of the invention depends on the object of the invention and the relation to

- the field of work for which the employee is employed by the employer and
- the field of business of the employer.

The employer might take over the invention in an extent depending on the category of the invention.

According to an agreement between SAF and SIF/SALF/CIF inventions are categorized as A, B or C category inventions.

**A category:** An invention which falls within the framework of duties or specific assignment of the employee. An invention of category A automatically belongs to the employer.

**B category:** An invention that can be utilized within Siemens AG's field of operations, but not being an A category invention. An invention of B category can be taken over by the employer.

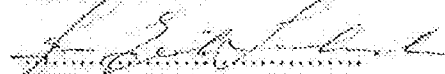

**C category:** Inventions that are neither A nor B inventions. An invention that is categorized as C is the property of the inventor.

Invention disclosure F09-018 has been classified by the Patent Manager at Siemens Industrial Turbomachinery AB in Finspång as being an invention of category → → → → → → → → → → A

If the inventor/s is/are of another opinion regarding the classification of the invention, the inventor/s shall inform the Patent Manager at Siemens Industrial Turbomachinery AB in Finspång in due time.
