ASSIGNMENT

WHEREAS, we, Kelley Casement of 910 26th Street, Denver, Colorado 80205, Russell Casement of 7543 Inspiration Drive, Parker, CO 80138, and Ricardo Gapski of Rua Tapajos 306, Curitiba Parana, Brazil 80.510.330, have invented a certain new and useful inventions and designs that are described in the applications for United States Letters Patent listed in Exhibit A ("Inventions");

WHEREAS, Provisional Implant Technology LLC ("ASSIGNEE"), a limited liability company duly registered in Colorado, United States of America, whose postal address is 1355 S. Colorado Blvd., Suite 320, Denver, CO 80222 desires to acquire the entire right, title, and interest in and to the Inventions, any applications related to the Inventions, and any Letters Patent, invention registrations, design registrations, and other invention or design protections to be granted for the Inventions in the United States and in all foreign countries;

NOW THEREFORE, be it known that we, the said inventors, for and in consideration of certain good and valuable consideration, the sufficiency and receipt of which is hereby acknowledged, at the request of the ASSIGNEE do sell, assign, and transfer unto ASSIGNEE, its successors, legal representatives, and assigns, the aforesaid applications and the Inventions described therein for the territory of the United States of America and all continuation, divisional, continuation-in-part, and reissue applications associated therewith; all corresponding patent applications in foreign countries; all applications pursuant to the Patent Cooperation Treaty; all applications for extension filed or to be filed for the Inventions; and all Letters Patent, Invention Registrations, Utility Models, Extensions, Reissues, and other patent or registration rights obtained for the Inventions in the United States of America or any other country;

We also assign any right, title, and interest in and to the Inventions which have not already been transferred to the ASSIGNEE;

We warrant that we have made no assignment of the Inventions, applications, patents, registrations, or other protections therefor to a party other than ASSIGNEE and we are under no obligation to make any assignment to any other party; and

We further agree to cooperate with the ASSIGNEE hereunder in the obtaining and sustaining of any and all such Letters Patent and other protections contemplated herein and in confirming ASSIGNEE's exclusive ownership of the invention(s), but at the expense of said ASSIGNEE.

We have reviewed and understand the contents of the applications, including the claims thereof, which may have been amended by a preliminary amendment filed with the application or which is contemplated. We affirm that the above-identified applications were made or authorized to be made by us. We acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56, including for continuation-in-part applications, material information which became available between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application. We hereby acknowledge that any willful false statement regarding inventorship of these applications is punishable under 18 U.S.C. 1001 by fine or imprisonment of not more than five (5) years, or both.

The Commissioner of Patents is hereby authorized and requested to issue the Letters Patent solely in accordance with the terms of this Assignment, to Provisional Implant Technology, LLC, its successors, legal representatives, and assigns, as the assignee of the entire right, title, and interest therein.

IN WITNESS WHEREOF, the parties hereto have executed this Assignment as of the date indicated hereunder.
