PATENT ASSIGNMENT AND RELEASE AGREEMENT

This **PATENT ASSIGNMENT AND RELEASE AGREEMENT** (the "Agreement"), dated March 1, 2015 (the "Effective Date") is made by and between ENHANCED VOICE SERVICES, INC., a Delaware corporation (the "Assignor"), and CHRISTOPHER O'DONNELL ("Assignee").

WHEREAS, Assignor is the owner of the entire right, title and interest in and to United States patent number 7,149,294 titled "*Alternative Means For Public Telephone Information Services*" (the "Patent");

WHEREAS, Assignor and Assignee are parties to that certain Promissory Note dated on or about November 17, 2011 (the "Note") where Assignor promised to pay Assignee the amounts set forth in said Note in consideration for the original assignment of the Patent from Assignee, as the inventor of the Patent, to Assignor;

WHEREAS, the parties desire to terminate the Note and all obligations therein in consideration for Assignee acquiring all of Assignor's right, title and interest in and to the Patent and the goodwill associated therewith, including the right to sue and collect for past infringement thereof.

NOW THEREFORE, for good and valuable consideration furnished by Assignee to Assignor, the receipt and sufficiency of which is hereby acknowledged, the parties intending to be legally bound hereby agree as follows:

1. Assignor does hereby assign, transfer and set over unto Assignee its entire right, title and interest in and to:

- (i) the Patent,
- (ii) all rights of priority with respect to the foregoing under international conventions, including without limitation the Paris Convention for the Protection of Industrial Property, the International Patent Cooperative Union, the European Patent Convention and the Common Market Convention,
- (iii) all models and designs, domestic and foreign, which may hereafter be filed corresponding to the Patent,
- (iv) all forms of industrial property protection, including without limitation patents, utility models, inventors' certificates and designs which may be granted on the Patent, and
- (v) all reissues, reexaminations, renewals, patents of addition and extensions of and with respect to the Patent,

the same to be held and enjoyed by Assignee for his own use and enjoyment and for the use and enjoyment of his successors, assigns and other legal representatives, to the end of the term for which the Patent is granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by Assignor as if this Agreement had not been made, together with all of Assignor's right, title and interest in and to claims for damages by reason of past infringement of

said Patent, with the right to sue for and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns or other legal representatives.

2. If necessary and requested to do so by Assignee or his successors, assigns or other legal representatives, Assignor shall use reasonable efforts to execute and deliver any and all applications, assignments or other instruments which are necessary to more effectively complete the assignment of the Patent referred to herein and to allow Assignee and his successors, assigns or other legal representatives to apply for, protect, obtain, maintain, issue, defend and enforce letters patent of any country or to otherwise protect their respective interests therein.

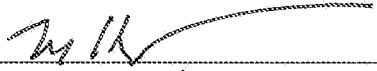

3. The Assignor hereby represents that it has not executed, and will not execute, any agreement or assignment to conflict herewith.

4. The parties hereby agree that, as of the Effective Date, (i) the Note and each party's obligations under said Note are hereby terminated, and (ii) Assignee hereby releases any purchase money security interest he has in and to the Patent. Assignee also on behalf of himself and his successors, heirs and permitted assigns hereby forever releases and discharges Assignor and its directors, officers, shareholders, employees and agents from and against any and all present and future claims, debts, demands, damages, actions, requests for indemnification, obligations and liabilities of whatever kind or nature arising out of or relating to the Note, the Patent, or use of the Patent, occurring on or prior to the Effective Date, whether those claims or any obligations related to the Patent are known or unknown as of the Effective Date.
