**ASSIGNMENT**

WHEREAS, we, David R. Carver, of Baton Rouge, LA, and Robert G. Carver, of Austin, TX, have invented a certain invention as described at least in part in the following patent application:

U.S. Patent Application No. 14/490,873, filed on September 19, 2014,  
entitled "VERY THIN DIELECTRICS FOR HIGH PERMITTIVITY AND VERY LOW LEAKAGE  
CAPACITORS AND ENERGY STORING DEVICES,"

which invention and application are collectively referred to as "The Invention."

WHEREAS, Carver Scientific, Inc., a corporation organized under the laws of the State of Delaware, having a place of business at Louisiana Business & Technology Center, 8000 Innovation Park Drive, Building 3000, Baton Rouge, LA, 70820, desires to acquire an interest therein:

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, we, David R. Carver and Robert G. Carver, hereby sell, assign, and transfer to Carver Scientific, Inc. the full and exclusive right, title, and interest in and to The Invention, patent application, and patent rights throughout the world, including foreign patent priority rights, the right to file and prosecute International Applications under the Patent Cooperation Treaty, and the right to file and prosecute applications under the European Patent Convention; The Invention, patent application, and letters patent in this or any foreign country, and all divisions, continuations, reissues, and extensions thereof, to be held and enjoyed by Carver Scientific, Inc. for its own use and benefit, and for its successors and assigns to the full end of the term for which letters patent may be granted by the United States or any foreign country, as fully and entirely as the same would have been held by us had this assignment and sale not been made, and covenant that we have full right so to do, and agree that we will communicate to Carver Scientific, Inc., or its successors and assigns, any facts known to us respecting The Invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing, and reissue applications, make all rightful oaths, and do everything possible to aid Carver Scientific, Inc., its successors, and assigns to obtain and enforce proper patent protection for said invention in the United States or any foreign country.

We confirm that, at the time The Invention was made, we were under an obligation to assign the invention to Carver Scientific, Inc.

We hereby grant the law firm of Klarquist Sparkman, LLP, the power to insert on this Assignment any further information that may be necessary or desirable in order to comply with all applicable legal requirements, including the rules of the United States Patent and Trademark Office, for submitting and recording this document.

Executed at the place and date opposite our respective signatures below.
