RECITALS

WHEREAS, pursuant to that certain Asset Purchase Agreement by and among Assignor and Assignee dated as of the date hereof (the "APA"), Assignor has agreed to assign to the Assignee all of the Assignor's right, title, and interest in and to the Intellectual Property, as defined in the APA, including, without limitation, the patents and patent applications listed on Schedule A hereto, and all divisions, continuations, continuations-in-part, substitute applications, reissues, re-examinations, and extensions thereof, and the inventions embodied therein (collectively, the "Patents"); and

NOW, THEREFORE, in consideration of the APA and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignment. Effective upon the closing of the transactions contemplated by the APA (the "Effective Time"), Assignor hereby assigns, conveys, and transfers to Assignee all rights, titles, and interests in and to the Patents, including any renewals and extensions of the Patents that are or may be secured under the laws of the United States and all foreign countries, now or hereafter in effect, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns, or other legal representatives, together with all income, royalties, or payments due or payable as of the effective date of this assignment or thereafter, including, without limitation, all claims for damages by reason of past, present, or future infringement or other unauthorized use of the Patents with the right to sue for and collect the same for Assignee's own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives.

2. Authorization. Effective upon the Effective Time, Assignor authorizes and requests the Commissioner of Patents and Trademarks, or any other official whose duty is to record ownership of patents in the United States and in all foreign countries, to record the Assignee as the owner of the Patents.

3. Further Assurances.
