PATENT ASSIGNMENT

This PATENT ASSIGNMENT (this "Patent Assignment") is made effective as of July 6, 2015 (the "Effective Date"), from LiphaTech, Inc., a Wisconsin corporation having a place of business at 3600 West Elm Street, Milwaukee, Wisconsin 53209 ("Assignor"), to De Sangosse U.S., Inc., a Delaware corporation having an address at 103 Foulk Road, Suite 205-23, Wilmington, Delaware 19803 ("Assignee").

RECITALS

- A. Assignor is the owner of the Assigned Patents (as defined below).
- B. Assignor desires by execution of this Patent Assignment to assign all of Assignor's rights, title, and interest in and to the Assigned Patents to Assignee, and Assignee desires by execution of this Patent Assignment to accept the assignment of all of Assignor's rights, title, and interest in the Assigned Patents to Assignee.

AGREEMENTS

For valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and in consideration of the covenants and agreements set forth herein, Assignor and Assignee mutually agree as follows:

1. Definition of Assigned Patents. The term "Assigned Patents" shall mean the patents, patent applications, and patent disclosures, together with all provisional and divisional applications, reissues, continuations, continuations-in-part, revisions, renewals, extensions, and reexaminations thereof, including but not limited to those listed in Appendix A attached hereto and made a part hereof, together with any patents issued as a result of such patent applications, as well as: (a) all rights to claim priority in any Assigned Patents and all rights in and to any and all improvements which are disclosed in any Assigned Patents; (b) any and all patents maturing from a continuation, continuation-in-part, division, reissue, reexamination, or international counterpart of any Assigned Patents and regardless of whether such patent matures from a convention or non-convention application, or any other substitution, renewal, extension, addition, utility model, or other United States or foreign patent; (c) all renewals thereof; and (d) all rights of action, powers and benefits accrued thereto, including the right to sue for and/or initiate any proceeding to collect damages and payments for past or future infringements thereof.

2. Assignment of the Assigned Patents. Subject to the terms, conditions, and limitations set forth herein, Assignor hereby sells, assigns, and transfers to Assignee, its successors and assigns all of Assignor's right and title to and interest in the Assigned Patents, free and clear of all liens and encumbrances, except any listed in the Asset Purchase Agreement, and including the right to claim priority in and to the same.

3. Governing Law. This Patent Assignment shall be governed by the laws of the state of Delaware and the patent laws of the United States without giving effect to any rule or provision thereof which would cause the application of the law of any other state.

4. Facsimile Signature; Counterparts. This Patent Assignment may be executed by facsimile delivery or other electronic means (*i.e.*, PDF) of original signatures and in counterparts, each of which shall be considered one and the same agreement, and shall become effective when such counterparts have been signed by each party and delivered to the other party.

IN WITNESS WHEREOF, this Patent Assignment has been duly executed by the parties as of the date first written above.
