ASSIGNMENT

WHEREAS we, Femina Pharma Incorporated, a Delaware corporation of 10350 W. Bay Harbor Drive, Suite 8C, Bay Harbor Island, FL 33154; are the owner of US Patent No. 6,086,909, entitled "Device and Method for Treatment of Dysmenorrhea" (the US '909 patent") and all of its related patents and applications claiming priority thereto, including but not limited to, those patents and applications listed on Exhibit A (hereinafter, the "Patents"); and

WHEREAS, Teva Women's Health, Inc., a Delaware corporation of 400 Chestnut Ridge Road, Woodcliff Lake, NJ 07677, hereinafter referred to as the Assignee is desirous of acquiring the entire right, title and interest in and to said Patents and any invention(s) or improvement(s) described in whole or in part in the Patents (collectively hereinafter referred to as "Invention(s)");

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, we, have sold, assigned, transferred, delivered and set over, and do hereby sell, assign, transfer, deliver and set over to Assignee, its successors, assigns, or legal representatives, the entire right, title and interest in and to said Patents and said Invention(s); and all the rights and privileges therein, including any and all benefits under the International Convention for the Protection of Industrial Property, including the right to claim priority based on said Patents, and under any and all Letters Patent which may be granted therefor, and all right title and interest in and to every patent application filed or to be filed on said Invention(s) in any other country or patent organization, including continuations, divisions, renewals, revivals, and any substitute applications of said Patents, and any and all patents which may issue thereon, and any reissues, reexaminations, pipelines, extensions, and governmental exclusivity rights extending therefrom.

AND we hereby assign to and authorize Assignee to file in any and all countries in our names or its own name applications for Letters Patent respecting said Invention(s), the same to be held and enjoyed by Assignee, its successors, assigns, or legal representatives, to the full end of the term or terms for which said Letters Patent respectively may be granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by me/us had this assignment, sale, transfer, delivery and set over not been made.

AND we hereby covenant that we have full right to convey the entire interest herein assigned, and that we have not executed and will not execute any agreement in conflict herewith.

AND we further covenant and agree that, at Assignee's expense, we will each time a request is made and without undue delay: (i) execute and deliver all such papers as may be necessary or desirable to perfect the title to said application, Inventions(s), and said Letters Patent to Assignee, its successors, assigns, or legal representatives; (ii) communicate to Assignee or to its nominee all known facts respecting said application, Invention(s), and said Letters Patent; (iii)

testify in any legal proceedings; (iv) sign all lawful papers in connection with said application and Letters Patents including all disclaimers and divisional, continuing, reissue, reexamination and foreign applications; and (v) make all rightful oaths, and generally to do everything possible to aid Assignee, its successors, assigns, and legal representatives to obtain and enforce for its or their own benefit proper patent protection for said Invention(s) in any and all countries.

AND we hereby authorize and request the Commissioner of Patents and Trademarks of the United States and any official of any country or countries foreign to the United States whose duty it is to issue patents on applications as aforesaid, to issue to said Assignee, as assignee of the entire right, title and interest, any and all applications and Letters Patent for said Invention(s), including any and all Letters Patent of the United States which may be issued and granted on or as a result of the Invention, in accordance with the terms of this assignment.

Signed at Bay Mills, Mich on this 13 day of July, 2015.
