ASSIGNMENT OF RIGHTS - PATENT ISSUED

Steven Dines ("Assignee") and John Martin ("Assignor") are co-inventors of U.S. Patent Number: 8,826,505, dated September 9th 2014, titled "Method and Apparatus for Facilitating the Installation of a Garbage Disposal Unit" (the "Patent"). Assignee desires to acquire sole rights in and to the Patent.

Therefore, the Assignor assigns to Assignee 100% of his right, title and interest in the invention and Patent to Assignee for the entire term of the Patent and any reissues or extensions and for the entire terms of any patents, reissues or extensions that may issue from foreign applications, divisions, continuations in whole or part or substitute applications filed claiming the benefit of the Patent. The right, title and interest conveyed in this Assignment is to be held and enjoyed by Assignee and Assignee's successors as fully and exclusively as it would have been held and enjoyed by Assignor had this assignment not been made.

Assignor further agrees to: (a) cooperate with Assignee in the protection of the patent rights and prosecution and protection of foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain the Patent and any and all applications and registrations for the invention in any and all countries.
