Whereas, Assignors desire to convey all rights, title and interests in and to the same to Andreas Stihl AG & Co. KG ("Assignee"), with offices located at Badstr. 115, D-71336 Waiblingen, GERMANY.

Now, for valuable consideration by Assignee to Assignors, the receipt and sufficiency of which is hereby acknowledged, and for other good and valuable consideration, Assignee and Assignors hereby agree as follows:

Assignors hereby convey, assign, sell and transfer to Assignee all rights, title and interests in and to the Invention in said application, said application, and said Letters Patent, and in and to any and all continuation, division, renewal, utility, provisional, design or substitute applications based in whole or in part upon said Invention or upon said application, and any and all Letters Patent, in the United States and all foreign countries which may be granted therefor and thereon, reissues, and extension of Letters Patent granted for said Invention or upon said application, said Letters Patent, and Assignors hereby grant to Assignee the right to apply in its own name for patents or inventor's certificates and related rights heretofore or hereafter filed for the Invention in the United States, including (without limitation) all rights to claim priority based thereon, all patents granted thereon and all reissues, extensions and renewals thereof.

Assignors hereby covenant that no assignment, sale, agreement or encumbrance has been or will be made or entered into which would conflict with this Assignment and that Assignors have good right to assign the same to Assignee without encumbrance.

Assignors hereby bind their heirs, legal representatives, and assigns, as well as themselves, to do, upon Assignee's request and at Assignee's expense, but without additional consideration to Assignors, their heirs, legal representatives, or assigns, all acts reasonably serving to assure that the Invention, said application, said Letters Patent, and any and all Letters Patent based on the Invention or said application, shall be held and enjoyed by Assignee as fully and entirely as the same could have been held and enjoyed by Assignors, their heirs, legal representatives, and assigns if this assignment had not been made; and particularly to execute and deliver to Assignee all lawful application documents including petitions, specifications, and oaths, and all assignments, disclaimers, and lawful affidavits in form and substance as may be requested by Assignee; to communicate to Assignee all facts known to Assignors relating to the Invention or the history thereof; to furnish Assignee with any and all documents, photographs, models, samples, and other physical exhibits in Assignors' control or in the control of their heirs, legal representatives, or assigns which may be useful for establishing the facts of Assignors' conception, disclosures, and reduction to practice of the Invention; and to testify to the same in any opposition, litigation, or proceeding related thereto.
