NOW THEREFORE, in consideration of the premises and mutual covenants contained in this Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Assignor hereby conveys, assigns, sells, transfers and delivers to Assignee, its successors and assigns, all of its right, title and interest throughout the world in, to and under the Patents, including the underlying inventions described therein and any and all United States or foreign reissues, reexaminations, divisions, renewals, extensions, provisionals, continuations and continuations-in-part thereof and substitutes therefor, all Letters Patents of the United States which have been or may be granted thereof and all foreign counterparts thereof, including any reissues or extensions of Letters Patent granted thereon and any and all rights corresponding to any of the foregoing throughout the world, all priority rights under the International Convention for the Protection of Industrial Property for every member country (and any other international convention or treaty), any and all accounts, contract rights, warranties, litigation claims and rights, including the right to sue for and collect upon all claims for profits and damages as a result of future or past infringement, and other general intangibles of Assignor related to any of the foregoing, in each case whether now existing or hereafter acquired or created, whether owned, leased or licensed beneficially or of record and whether owned, leased or licensed individually, jointly or otherwise, together with the products and proceeds thereof (including license royalties and the proceeds of infringement suits), all payments and other distributions with respect thereto, and the right to fully and entirely stand in the place of Assignor in all matters related thereto.
