ASSIGNMENT

WHEREAS, I am a named inventor, **BERND SCHAFFERER**, of residence listed below, in an application for United States Letters Patent entitled "HIGH OUTPUT POWER DIGITAL-TO-ANALOG CONVERTER SYSTEM," (hereinafter referred to as "Application");

WHEREAS, I hereby authorize and request the attorneys or agents associated with United States Patent and Trademark Office Customer No. 110506 to insert here in parentheses (Ser. No. 14/628,730; Filing Date: February 23, 2015) the filing date and application number of said application when known;

WHEREAS, Analog Devices, Inc. (hereinafter referred to as "Assignee"), a Massachusetts Corporation, with an address of One Technology Way, Norwood, MA 02062, desires to acquire my entire right, title and interest in and to the invention, and in and to the said application and any Letters Patent that may issue thereon; and

WHEREAS, the Application was prepared after my employment with the Assignee ended, so I was not involved in the preparation or review of the Application and have had no input regarding the application, but I would like to fulfill my obligations as a former employee to sign any assignments or other documents deemed necessary by the Assignee to protect or perfect Assignee's rights to this invention that I created while I was an employee of Assignee;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I assign to Assignee, all right, title and interest in and to said invention and in and to said application and all patents which may be granted therefore, and all provisional, divisions, reissues, continuations, continuations-in-part and extensions thereof; and I hereby authorize and request the Commissioner of Patents and Trademarks to issue all patents for said invention, or patents resulting therefrom, insofar as my interest is concerned, to Assignee.

I also assign to Assignee, all right, title and interest to the invention disclosed in said application throughout the world, including the right to file applications and obtain patents, utility models, industrial models and designs for said invention in its own name throughout the world including all rights to publish cautionary notices reserving ownership of said invention and all rights to register said invention in appropriate registries; and I further agree to execute any and all powers of attorney, applications, assignments, lawful declarations, affidavits, and any other papers in connection therewith necessary to perfect such right, title and interest in Assignee.
