PATENT ASSIGNMENT

This assignment made as of the date below by inventor Sudhir Mundhra, a United States citizen and resident of Cerritos, California (“Assignor”), to Siya, Inc., a California corporation doing business as Sona Enterprises with its principal office in Santa Fe Springs, California (“Assignee”);

WHEREAS, Assignor has invented a new, original, and ornamental design entitled Whistle (“the Design”), for which United States design patent application are concurrently filed herein, and further identified by Cislo & Thomas’ Docket No. 15-30425 and 15-30426 (“the Patent Application”);

WHEREAS, Assignor believes himself to be the original, first, and sole inventor of the Design disclosed and claimed in the Patent Application; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment Assignor’s entire right, title, and interest in and to the Design, the Patent Application, and any provisional, non-provisional, divisional, continuation, continuation-in-part, reissue, foreign, or other application based on the Design, in the United States and throughout the world.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby sells, assigns, and transfers to Assignee, his entire right, title, and interest in and to the Design and the Patent Application for the Design in the United States and throughout the world, including the exclusive right to file any provisional, non-provisional, divisional, continuation, continuation-in-part, reissue, foreign, or other application based on the Design directly in the name of Assignee and to claim any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, he and his legal representatives and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing, or enforcing the Patent Application in the United States and throughout the world for the Design, and for

perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to the Design, and the Patent Application concurrently filed herein, and any patents granted for the Design in the United States and throughout the world.

Assignor represents and warrants that he has not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Patent granted for the Design, whether on the Patent Application, or on any subsequently filed provisional, non-provisional, divisional, continuation, continuation-in-part, reissue, or other application, to Assignee, its successors and assigns, as the assignee of Assignor's entire interest in the Design.

IN WITNESS WHEREOF, Assignor has executed this Assignment on the date set forth below.
