SUMMARY OF ASSIGNMENT

THIS SUMMARY OF ASSIGNMENT is made effective as of the 3rd day of February, 2014, by and between PATTON ENGINEERING, INC., a California corporation located at 4591 Waterstone Dr., Roseville, California 95747 and SUSTAINABLE TECHNOLOGIES, LLC, a California limited liability company, having a principal business address at 12970 Earhardt Ave, Suite 200, Auburn, California 95602.

WHEREAS, to facilitate recording of the Summary of Assignment, the parties desire to summarize their agreement of all right, title and interest in and to the Invention(s) as indicated below including, but not limited to, an exclusive world-wide right to control, utilize, prosecute, and protect all such rights for their entire duration, as further evidenced by the Assignment effective as of the 3rd day of February, 2014.

WHEREAS, SUSTAINABLE TECHNOLOGIES, LLC has obtained, through a technology assignment agreement, a variety of proprietary rights including, but not limited to: patent rights for U.S. Patent Application No. 13/561,905, filed July 30, 2012, including all continuation, divisional, and continuation-in-part applications thereof; and rights of patents, trade secrets, and trademarks which arise from or are the subject of U.S. Patent Application No. 13/561,905, filed July 30, 2012 (the Invention(s)).

The parties agree to take no steps which might in any way diminish or impair the rights granted herein. The parties agree to execute any additional summary or other documents for recording purposes.

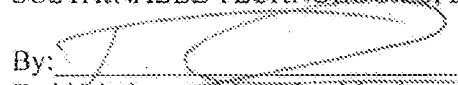

This Assignment Summary may be recorded in the United States Patent and Trademark Office.
