ASSIGNMENT OF TECHNOLOGY RIGHTS

This Assignment, effective as of the 26 day of August, 2013, is by and between Solar Power, Inc. whose address is 2240 Douglas Blvd., Roseville, CA 95661 (the "Assignor"), and Patton Engineering Incorporated whose address is 4591 Waterstone Drive, Roseville, CA 95747 (the "Assignee").

WHEREAS, the parties desire to transfer worldwide to the Assignee all right, title, and interest in and to certain technology useful in the solar power field known as the "SkyMount" technology as such is disclosed in or covered by US Patent Application No. 13/561905 together with all proprietary rights available thereby and useful to or necessary for commercialization thereof (the "Technology");

NOW, THEREFORE, for \$10.00 or other good and valuable consideration, receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

1. The Assignor represents and warrants that it has the authority to assign all right, title and interest in and to the Technology and has conveyed no undisclosed right, title, or interest in or to any of the Technology.

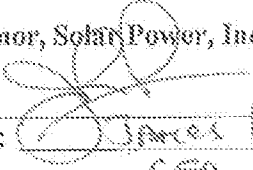

2. The Assignor, for good and valuable consideration, receipt of which is hereby acknowledged, hereby sells, grants, transfers, and assigns to the Assignee the entire right, title, and interest in and to the Technology, including, but not limited to all worldwide rights to make, use, offer for sale, and sell the Technology and to file for and continue efforts to obtain patents for such Technology as Assignee desires, but at Assignee's sole cost and expense.

3. The Assignor covenants and agrees that it will testify in any legal proceeding, sign all lawful papers, execute and additional documentation, make all rightful oaths, and generally do everything possible

to aid Assignee to obtain and enforce full protection and title in and to the Technology in all countries as reasonably requested but at the cost and expense of the Assignee. Assignor agrees to cooperate with Assignee and/or its designees in obtaining and enforcing any proprietary right in any country related to the Technology, including but not limited to any patent right related to the Technology, and agrees to make requested personnel available for Assignee enforcement efforts only to the extent reasonable for the Assignor at that time.

4. This assignment shall be binding on all parties, their heirs, executors, administrators, successors, and/or assigns. In the event any provision of this Agreement is found to be unenforceable or to be unreasonable in scope, such provision shall be modified to the extent necessary to make it enforceable, and as so modified, this Agreement shall remain in full force and effect.

Assignor, Solar Power, Inc.
