ASSIGNMENT

This Assignment is made by Simon WALKER, of 860 Jackson Way, Delta British Columbia, CANADA, V4L 1W4; Craig LAWSON, of 8485 New Haven Close, Suite 1206, Burnaby, British Columbia, CANADA, V5J 0B7; Charles YOUNG, of 104-863 W 16th Ave, Vancouver, British Columbia, CANADA, V5Z 1S9; and Hou Jun (Frank) FAN, of Unit 10, 15977 26th Avenue, Surrey, British Columbia, CANADA, V3S 2W7 (the "Assignors") to Peak Innovations Inc., having a place of business at 203 -- 11782 Hammersmith Way, Richmond, British Columbia, CANADA, V7A 5E2 (the "Assignee");

WHEREAS, the Assignors have invented a new and useful invention and design entitled CAP (the "Design"), for which a United States design patent application will be filed substantially contemporaneously with the execution of this Assignment;

WHEREAS, the Assignors believe themselves to be the first and original inventors of the Design; and

WHEREAS, the Assignee desires to acquire by formal, recordable assignment the entire worldwide right, title and interest in and to said Design, said application, and any design registration or patent that may be granted for said Design anywhere in the world;

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignors hereby sell, assign, and transfer to the Assignee, the entire worldwide right, title and interest in and to the Design, said application, any applications in any countries for the Design and any patent or design registration that may be granted for the Design anywhere in the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, the Assignors agree that, upon request and without further compensation, but at no expense to the Assignors, they and their legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, sustaining, reissuing or enforcing any patent or design registration as may issue anywhere in the world for said Design, and for perfecting, recording or maintaining the title of the Assignee, its successors and assigns, to the Design, said application, and any patent or design registration granted for the Design anywhere in the world.

Further, the Assignors agree to provide, upon request, copies of all documents pertaining to the conception or development of the Design.

The Assignors represent and warrant that they have not granted and will not grant to any other any rights inconsistent with the rights granted herein.

The Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries or patent organizations to issue any design registration or patent granted for the Design, whether on said application or on any subsequently filed regular, division, continuation, continuation-in-part, or

reissue application, to the Assignee, its successors and assigns, as the assignee of the entire interest in the Design.
