PATENT ASSIGNMENT

This PATENT ASSIGNMENT is given by DESA Specialty LLC, DESA LLC, DESA IP LLC and DHP Holdings II Corp., Debtors and Debtors in Possession (together the "Assignor") in favor of MTD Products Inc, a Delaware corporation (the "Assignee").

WHEREAS, Assignor and MTD Southwest (the "Buyer") have heretofore entered into the Asset Purchase Agreement dated May 14, 2009 (the "Agreement") pursuant to which the Assignor has agreed to assign all its right, title and interest, if any, in and to the patents and patent applications set forth on the attached Schedule 1.1.2(iii) to Assignee which is the parent corporation of Buyer.

NOW, THEREFORE, FOR GOOD AND VALUABLE CONSIDERATION, the receipt and sufficiency of which Assignor hereby expressly acknowledges, to the extent of its interest therein, Assignor hereby sells, assigns and transfers unto said Assignee, its successors and assigns, its entire right, title and interest in and to the Patents listed in Schedule 1.1.2(iii), and in, as to each of the following, to the extent of any interest of Assignor therein, any divisions or continuations thereof, and the inventions therein disclosed, and any improvements thereon, and any patent or patents that may be issued or reissued thereon, and hereby authorizes and requests the Commissioner of Patents and Trademarks to issue any letters patent thereon, and reissues thereof, to said Assignee, its successors and assigns; and hereby authorizes said Assignee, its successors and assigns, to file in its own name applications for patent in foreign countries in connection with the inventions hereby transferred, under the International Convention, the European Patent Convention and/or the Patent Cooperation Treaty, claiming the priority of said United States application or otherwise, and to secure in its own name the patent or patents issued thereon; and hereby agrees that, upon request, Assignor will sign all papers, and make all rightful oaths, and do all acts which said Assignee, its successors or assigns, may consider necessary in connection with said United States applications, and in connection with any other United States or foreign applications that may be filed in connection with said inventions, and with any improvements thereon, and in connection with any patents issued or reissued thereon; provided, however, that nothing herein shall obligate Assignor to (i) initiate or join in any litigation, action or proceeding, or (ii) execute any document or perform or take any action that would entail or impose upon Assignor any monetary or other material obligation that the Assignee is not expressly required to undertake or perform pursuant to the terms and provisions of the Agreement.
