all of which we are the only co-inventors thereof.

WHEREAS, Advanced Accelerator Applications USA, Inc., formerly known as BioSynthema Inc. (hereinafter referred to as the "Assignee"), a corporation of the State of Delaware, having its principal office and place of business at The Empire State Building, 350 5th Avenue, Suite 6902, New York, New York 10118, is desirous of acquiring the entire right, title and interest in and to said invention and improvements as disclosed in said application, in and to said application, and in and to the patent to be obtained thereon.

NOW THEREFORE, for good and valuable consideration, the receipt and adequacy of all of which are hereby acknowledged, Assignors, hereby assign and transfer unto said Assignee, its successors or assigns, the entire right, title and interest in and to said inventions and improvements as the same are disclosed in said applications executed by Assignors, in and to said applications, and in and to any and all Letters Patent and applications filed therefor, including provisionals, non-provisionals, divisionals, continuations, continuations-in-part, reissues, reexaminations and extensions to be obtained therefor in the United States and all foreign countries, including all priority rights and all rights to claim priority; and Assignors further agrees to cooperate with Assignee hereunder in the obtaining and

sustaining of any and all such Letters Patent as Assignee may desire to apply for, but at the expense of said Assignee.

The Commissioner of Patents or other proper official is hereby authorized and requested to issue said Letters Patent to Assignee in accordance with this Assignment.

The undersigned hereby authorizes and requests the attorneys of record in said applications to insert in this Assignment the serial number, filing date, and date of execution of said applications.

For said considerations, Assignors hereby agree, upon the request and at the expense of Assignee, to execute any provisional, non-provisional, divisional, continuation, continuation-in-part or substitute application for said invention or improvements, and any oath or affidavit relating thereto, and any application for the reissue or extension of any Letters Patent that may be granted upon said applications, and, in the event of any application or Letters Patent assigned herein becoming involved in any derivation proceeding, interference, or third party challenge, to cooperate to the best of the ability of Assignors in the matters of preparing and executing any petition, affidavit, or other document relating thereto and giving and producing evidence in support thereof. Assignors agree to perform, upon request, any affirmative acts to obtain said Letters Patent of the United States or foreign country and vest in said Assignee all rights therein, whereby said Letters Patent will be held and enjoyed by Assignee, to the full end of the term for which said Letters Patent may be granted as fully and entirely as the same would have been held and enjoyed by Assignors if this Assignment had not been made.

And for said consideration, Assignors hereby assigns to Assignee the entire right, title and interest in said invention or improvements for all foreign countries, including all priority rights, and agrees to execute, at the request of Assignee, all documents in connection with any application for foreign Letters Patent therefor.
