### **ASSIGNMENT BY INVENTORS**

This Assignment is by Alain D. Baron, a US citizen, residing at 12863 Baywind Point, San Diego, California 92130, and Mark S. Fineman, a US citizen, residing at 12444 Oakfort Place, San Diego, California 92131, and Nigel R.A. Beeley, a US citizen, residing at 227 Loma Corta Drive, Solana Beach, California 92075 ("Assignors"). We Assignors have invented certain inventions (the "Invention(s)") described in a United States Patent Application entitled "Methods of Treating Metabolic Disorders in Patients" (the "US Application"), the specification of which was filed on May 18, 2012 and assigned U.S. Application No. 61/649,171.

Elcelyx Therapeutics, Inc., a privately-held company, having its principal place of business at 11995 El Camino Real, Suite 305, San Diego, California 92130 ("Assignee"), desires to acquire the entire right, title and interest in and to the Invention(s), the US Application, and any Patents that may be granted for the Invention(s) in the United States or in any foreign countries (collectively, "Patents").

For valuable consideration, the receipt and sufficiency of which Assignors acknowledge, Assignors hereby sell, assign, and transfer to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), the Application, and any Patents; any divisions, continuations, and continuations-in-part of the Application and any other application claiming priority rights from the Application; any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application (collectively, the "Rights"). Assignors warrant that Assignee own the Rights, and that the Rights are unencumbered. Assignors also agree to not sign any writing or do any act conflicting with this assignment, and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee's enjoyment of the Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; or perfect or defend title to the Rights. Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee.

This Assignment may be executed in counterparts.

Date:

2/4/14

  
Alain D. Baron

On \_\_\_\_\_ before me, \_\_\_\_\_, personally appeared Alain D. Baron, proved to me on the basis of satisfactory evidence to be the person whose name is subscribed to the within instrument and acknowledged to me that he executed the same in his authorized capacity, and that by his signature on the instrument the person, or the entity upon behalf of which the person acted, executed the instrument.

I declare under PENALTY OF PERJURY that the foregoing paragraph is true and correct.

WITNESS my hand.
