ASSIGNMENT

WHEREAS, Risto Airaksinen, and Ari Koskinen, hereinafter called the "Assignors", have made the invention described in the United States patent application entitled DEVICE, ARRANGEMENT AND METHOD FOR VERIFYING THE OPERATION OF ELECTRICITY METER, for a full description of which reference is here made to an application for Letters Patent of the United States filed on March 25, 2015 and assigned Application Serial No. 14/431,013, which is a national phase application of PCT International Patent Application No. PCT/EP2013/002634 filed on September 3, 2013, and which claims priority to United Kingdom Patent Application No. 1217046.0 filed on September 25, 2012;

WHEREAS, Landis+Gyr Oy, a corporation organized and existing under the laws of Finland, having a place of business at Salvesenintie 6, 40420 Jyväskylä, Finland, and Landis+Gyr AG, a corporation organized and existing under the laws of Switzerland, having a place of business at Thellerstrasse 1, 6301 Zug, Switzerland, hereinafter called the "Assignees", desire to each acquire an undivided interest in the entire right, title and interest in and to the invention and the patent application identified above, and all patents which may be obtained for said invention, as set forth below;

NOW, THEREFORE, in consideration of valuable and legally sufficient consideration, the receipt of which by the Assignors from the Assignees is hereby acknowledged, the Assignors have sold, assigned and transferred, and by these presents do sell, assign and transfer to the Assignees, *nunc pro tunc*, effective as of September 25, 2012, the entire right, title and interest in and to the invention and the patent applications identified above, and any patents that may issue for said invention in Europe and the United States; together with the entire right, title and interest in and to said invention and all patent applications and patents issuing therefrom in all countries, including the full right to claim for any such application all benefits and priority rights under any applicable convention; together with the entire right, title and interest in and to all continuations, continuations-in-part, divisions, renewals, reissues, and extensions of any of the patent applications and patents defined above; together with the right to recover all damages, including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application

rights; to have and to hold for the sole and exclusive use and benefit of the Assignees, their successors and assigns, to the full end of the term or terms for all such patents. The Assignors hereby sell, assign, and transfer the entire right, title and interest to the Assignees as of the day of filing the application identified above.

The Assignors hereby covenant and agree, for both the Assignors and the Assignors' legal representatives, that the Assignors will assist the Assignees in the prosecution of the patent application identified above, in the making and prosecution of any other patent applications that the Assignees may elect to make covering the invention identified above, in vesting in the Assignees like exclusive title in and to all such other patent applications and patents; and that the Assignors will execute and deliver to the Assignees any and all additional papers which may be requested by the Assignees to carry out the terms of this Assignment.

The Commissioner of Patents and Trademarks in the United States, and like officials in their respective countries, are hereby authorized and requested to issue patents to the Assignees in accordance with the terms of this Assignment.

IN TESTIMONY WHEREOF, the Assignors have executed this agreement.
