PATENT ASSIGNMENT

WHEREAS, I, **Andrew P. Jones**, have invented a certain improvement in "Combustion burner resulting in low oxides of nitrogen," described in U.S. Patent No. 8,016,590 (hereinafter "Patent"), issued September 13, 2011;

WHEREAS, **Convergence Combustion, Inc.** (hereinafter "ASSIGNEE"), a corporation organized and existing under the laws of Oklahoma and having a place of business at 10009 E. 93rd Street N., Owasso, Oklahoma 74055, desires to confirm its interest therein;

NOW, THEREFORE, to all whom it may concern be it known that for good and valuable consideration (including one U.S. dollar), the receipt of which is hereby acknowledged, I have sold, assigned and transferred and by these presents do hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns and legal representatives, the entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to said invention as described in said Patent, together with the entire right, title and interest in and to said Patent; said invention and Patent to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said Patent may be granted as fully and entirely as the same would have been held by me had this assignment and sale not been made; I hereby convey all rights arising under or pursuant to any and all international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for letters patent. I hereby acknowledge that this assignment, being of the entire right, title and interest in and to said invention, carries with it the right in ASSIGNEE to apply for and obtain from competent authorities in all countries of the world any and all letters patent by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all such letters patent to ASSIGNEE for its own name as assignee of the entire right, title and interest therein;

AND, I hereby further agree for myself and my executors and administrators to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid invention to said ASSIGNEE, its successors, assigns and legal representatives, but at its or their expense and charges, including the execution of applications for patents in foreign countries, and the execution of any further applications including substitution, reissue, divisional continuation, or continuation-in-part applications, and preliminary or other statements and the giving of testimony in any interference or other proceeding in which said invention or any application or patent directed thereto may be involved;

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my seal the date set forth below.

Inventor's Signature: Andrew P. Jones
