ASSIGNMENT OF INVENTION

S I R:

WHEREAS, Peregrin Services Corporation (hereinafter, the "Assignor"), a corporation organized under the laws of the State of Maryland having an address at 10451 Mill Run Circle, Suite 310, Owings Mills, MD 21104, has the entire right, title, and interest in the above-identified patent application, including patent rights and any applications and patents related hereto or claiming priority therefrom, including the right to recover damages and remedies corresponding hereto; and

WHEREAS, Peter K. Trzyna (hereinafter, the "Assignee"), an individual, having an address at 195 N. Harbor Drive, No. 5403, Chicago, Illinois, 60601, has an acknowledged right to receive the entire right, title, and interest in the above-identified patent application, including patent rights and any applications and patents related thereto or claiming priority therefrom;

Whereas Assignor does not wish to be encumbered in the normal pursuit of its business;

Whereas, Assignee is willing to take over expenses pursuing that which is assigned and should be compensated therefore, including in the case where a material influence or change in Assignor would reduce the royalty base related to the subject matter of this Assignment;

NOW, THEREFORE, in consideration of five percent (5%) of future net revenue from commercializing rights conveyed hereby to be paid to Assignor, and other good and valuable consideration received by Assignor, the sufficiency of such is hereby acknowledged, Assignor hereby acknowledges that the Assignor has sold, assigned, transferred, and set over, and by these presents does hereby sell, assign, transfer, and set over, unto the Assignee, its successors, and assigns the entire right, title and interest in, to, and under any and all inventions disclosed or described in the above-identified patent application, any and all United States and foreign patents which may be granted pursuant thereto, and any and all rights thereto that Assignor may have, including the above-identified patent application, and any and all United States and foreign applications, continuations, continuation-in-parts, divisions, renewals, and substitutes thereof, as well as any reissues or reexamination patent(s); and Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States to issue all Letters Patent for said invention to the Assignee, its successors, and assigns, in accordance with the terms of this instrument;

FURTHER, in lieu of any shop right or license, express or implied, Assignee hereby grants to Assignor a covenant not to sue for use and operation of the invention as claimed in any patent issuing from that which is assigned hereby. Upon the acquisition of Assignor by another entity, or change in majority control of Assignor's shares, Assignor shall pay a royalty of 5%, or at its option, accept and perform all terms (including royalty rate) of any license granted by Assignee for that which is assigned hereby. This royalty shall also be applied to any companies that are acquisitions by Assignor, and/or to a transfer of its applicable business to another company. In all cases, Assignor shall share in the portion of license revenue described elsewhere in this agreement.

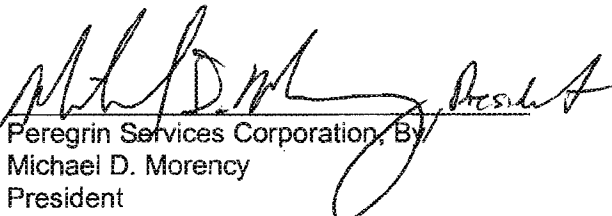

AND ASSIGNOR HEREBY covenants that Assignor has full right to convey the entire interest assigned, and that Assignor has not executed, and will not execute, any agreement in conflict herewith;

AND ASSIGNOR HEREBY further covenants that Assignor respectively will communication to the Assignee, its successors, legal representatives, and assigns, any facts known respecting said invention, and testify in any legal proceedings, sign all lawful papers, execute all divisional, continuing, and reissue applications, make all rightful oaths, and generally do everything possible to aid the assignee, its successors, legal representatives, and assigns, to obtain and enforce proper patent protection for said invention;

THIS ASSIGNMENT is effective May 29, 2007, and shall be signed in duplicate original documents corresponding to a facsimile exchange of signed documents.

THIS ASSIGNMENT of Invention is the entire agreement as to its subject matter. If any portion of this Assignment is determined to be invalid, illegal, or unenforceable under any present or future law by the final judgment of any court of competent jurisdiction, the remainder of the Assignment shall not be affected thereby. It is the intention of the undersigned that if any portion of this Assignment is determined to be invalid, a portion as similar in terms to such portion as is possible to be legal, valid, and enforceable shall be added in lieu thereof.

IN TESTIMONY WHEREOF, Assignor respectively hereunto set hands and seals on the day and year set opposite its signature.
