PATENT ASSIGNMENT

WHEREAS, Baxter International Inc., a company having a place of business at One Baxter Parkway Deerfield, Illinois United States Of America 60015 (the "Assignor"), is the owner of the Patents and Applications identified in attached Schedule A ("the patents"); and

WHEREAS, Baxalta GmbH, a company having a place of business at Thurgauerstraße 130, 8152 Glattpark, Opfikon, Switzerland (the "Assignee"), is desirous of acquiring the patents, and related inventions thereof.

NOW, THEREFORE, for good and valuable consideration in the amount of U.S. ten dollars (\$10.00) each per patent or application shown on Schedule A, the receipt of which is hereby acknowledged, Assignor has sold, assigned and transferred, and by these presents do sell, assign and transfer unto said Assignee, and Assignee's successors and assigns, all right, title and interest in and to the patents, and the inventions disclosed and claimed therein, and any Letters Patent which may hereafter be granted on the same in the United States and all countries throughout the world including any reissues, divisions, renewals, continuations in whole or in part, substitutions, conversions, reexaminations, prolongations, provisionals or extensions thereof, as well as rights to any and all existing causes of action and the right to past damages associated therewith, and all rights under the Paris Convention for the Protection of Industrial Property, the same to be held and enjoyed by Assignee, for its own use and behalf and the use and behalf of its successors, legal representatives, and assigns, to the full end of the term or terms for which Letters Patent or Patents may be granted as fully and entirely as the same would have been held and enjoyed by Assignor had this sale and assignment not been made.

Assignee hereby grants a limited power of attorney for the purpose of recording this assignment in the United States and all other countries throughout the world to the practitioners listed on the power of attorney attached herewith and further grants the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office or any other patent office worldwide for recordation of this document.
