ADVANCED MICRO DEVICES AGREEMENT

In consideration of my employment with and the compensation paid by ADVANCED MICRO DEVICES, INC. or any of its subsidiaries, parents, joint ventures or other affiliates (collectively, the "Company"), I agree and declare as follows:

1. I will promptly disclose to the Company all ideas, inventions, works of authorship (including (without limitation) computer programs, software and documentation), improvements or discoveries that during the term of my employment I may conceive, make, develop or work on (whether solely or jointly with others, and whether or not patentable or copyrightable or reduced to drawings, written description, documentation, models or other tangible form) and that relate either to the Company's products, manufacturing processes, manufacturing equipment, process controls, services or research and development, or to my employment activities (collectively, "Work Product"). All Work Product shall immediately and without further consideration become the sole and exclusive property of the Company, its successors and assigns. To the extent any Work Product qualifies as a "work made for hire" under United States copyright laws (United States Code, Title 17, Section 101 - Definitions), the Company shall solely and exclusively own all applicable copyrights. To the extent that any Work Product does not qualify as a "work made for hire" under United States copyright laws (regardless of reason), I hereby completely assign and transfer to the Company all right, title and interest, including all copyright rights, that I may have in and to such Work Product. I acknowledge that the foregoing provisions do not apply to (i) any invention that fully qualifies for exemption under Section 2870 of the California Labor Code (quoted in full below) and (ii) all ideas, inventions, works of authorship, improvements and discoveries that I (alone or jointly with others) conceived, developed or reduced in practice prior to the date I sign this Agreement (collectively, "Prior Works"). On Schedule A (see the reverse side of this Agreement), I have identified all Prior Works that I intend to exclude from the scope of this Agreement. In addition, I will provide the Company with complete non-confidential descriptions (using the Company's disclosure forms) of all Prior Works within thirty (30) days following the start of my employment. By not identifying any Prior Works on Schedule A, I acknowledge that no Prior Works exist.
2. During and after my employment with the Company, I will assist the Company in every reasonable way to obtain and maintain, for the use and benefit of the Company or its nominees, patents, copyrights or other protection for any ideas, inventions, works of authorship, improvements or discoveries, including (without limitation) by signing any papers, authorizations, applications or assignments, making and keeping proper records and providing evidence or testimony. The Company will pay for any actual and reasonable expenses I incur in providing such assistance.

9. This Agreement expresses the entire understanding between me and the Company with respect to the subject matter herein, supercedes all prior agreements or representations on the same subject matter and is effective as of the date I sign it. No modification of any term of this Agreement shall be valid or binding unless such modification is set forth in a writing signed by both me and an Officer of the Company. This Agreement shall not be terminated or altered by changes in duties, compensation or other terms or conditions of my employment. This Agreement is binding upon both my heirs, successors and assigns, and the Company's successors and assigns. The failure by either me or the Company to enforce any term of this Agreement at any time or for any period of time shall not be construed as a waiver of such term or the right to later enforce such term. If a court holds any provision of this Agreement invalid, unlawful or unenforceable, such holding shall not affect the remaining provisions of this Agreement, and this Agreement shall be construed as if such invalid, illegal or unenforceable provision had never been contained herein.

California Labor Code, Section 2870 - Employment agreements; assignments of rights: (a) Any provision in an employment agreement which provides that an employee shall assign, or offer to assign, any of his or her rights in an invention to his or her employer shall not apply to an invention that the employee developed entirely on his or her own time without using the employer's equipment, supplies, facilities, or trade secret information except for those inventions that either: (1) Relate at the time of conception or reduction to practice of the invention to the employer's business, or actual or demonstrably anticipated research or development of the employer; or (2) Result from any work performed by the employee for the employer. (b) To the extent a provision in an employment agreement purports to require an employee to assign an invention otherwise excluded from being required to be assigned under subdivision (a), the provision is against the public policy of this state and is unenforceable.
