ASSIGNMENT

WHEREAS I, **Timothy MacKay**, whose full post office address is 89 Hohner Avenue, Kitchener, Ontario, N2H 2V3, Canada, is the inventor of an Industry Design entitled

INSECT TRAP

for which an Industry Design application is going to be filed on April 23, 2014 in the United States Patent & Trademark Office ;

AND WHEREAS **Maxtech Mosquito Control Inc.**, of Unit 3, 173 Roger Street, Waterloo, Ontario, N2J 1B1, Canada (the "Assignee"), has acquired from me my whole right, title and interest for Canada, the United States of America and all other countries in and to the said invention and said application, in and to any Letters Patent that may be obtained therefor, and in and to the right to sue for past infringement and to collect for all past, present and future damages;

NOW THEREFORE, in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of all of which is hereby acknowledged, we confirm that we have sold, assigned and transferred and do hereby sell, assign, and transfer unto the said Assignee our full and exclusive right to the said invention in Canada, the United States of America and all other countries and our entire right, title and interest in and to the said Industry Design, and in and to any and all patent or design patent applications or similar applications (the "Regular Applications") in which priority is claimed from the said Industry Design application, and in and to any Letters Patent which may be granted therefor, and in and to any divisions, continuations, continuations-in-part and extensions of any said Regular Applications, and in and to the right to sue for past infringement and to collect for all past, present and future damages.

We agree that we will, without further consideration, do all such things and execute all such documents as may be necessary or desirable to obtain and maintain patents for said invention and for additions and modifications thereto in any and all countries, and to vest title thereto in said assignee, its successors, assigns, and legal representatives or nominees.

We authorize and empower said assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for said invention or for additions and modifications thereto, filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from us.

We hereby authorize and request the United States Commissioner of Patents and Trademarks to issue said Letters Patent to said Assignee, the assignee of our entire right, title and interest in and to the same, for its sole use and benefit, and for the use and benefit of its successors and assigns, to the full end of the term for which Letters Patent may be granted, as fully and entirely as the same would have been held by us had this assignment and sale not been made.

IN WITNESS WHEREOF, the assignors have executed this Assignment as of the 22th day of April, 2014.
